BOMB FOUND AT SHRINE

Mexico Throgs Face Peril
Infernal Machine Disguised as Holy Candle Found in Nick of Time

MEXICO CITY, Dec. 12. (AP)—Many worshippers at the shrine of Guadalupe escaped possible death or injury today when a bomb was discovered in what was supposed to be a holy candle. The dangerous nature of the candle was detected in time to prevent its being lighted.

In the afternoon when the church and shrine were crowded with an unidentified man, who later made his escape, approached the altar carrying what seemed to be a large unlighted candle, which he handed to some worshiper saying: "Burn this for the Virgin."

The worshiper, suspicious because of the weight of the candle, called the police, who found that it was a wax-covered bomb.

THOUSANDS AT SHRINE
More than 100,000 persons, mostly Indians, many of whom walked from distant regions, congregated today at the shrine of the Virgin of Guadalupe. They came to pay devotion to Mexico's patron saint on the national holiday annually dedicated to her memory in celebration of her traditional appearance almost four centuries ago.

Because of the religious regulations this was the second time in history that the shrine had been closed to pilgrims. The streets leading from Mexico City to the shrine were guarded heavily by police, but the pilgrims attempted no demonstrations and the day passed as tranquilly as in the times before the new religious laws became effective.

COUNT ON PILGRIMAGE
For centuries it has been the life ambition of almost every Indian peasant to make at least one pilgrimage to Guadalupe, even though it meant several weeks of arduous travel over the mountains and deserts from some distant village and the expenditure of what to him was a small fortune, although the sum might be only the equivalent of a few dollars.

Long before daylight today every road reaching to the shrine was thronged with pilgrims, many of whom were dressed in their best, and many were carrying candles, which they would light in the courtyard of the church of the shrine.

Part of the Christmas mail and many tons of freight on the Northern Pacific were believed to have been irreparably damaged by water.

War Ills Kill Son-in-Law of Late Commoner

MILWAUKEE, Pa., Dec. 12. (AP)—Major Reginald Owen, veteran of the British army and son-in-law of the late William Jennings Bryan, died here tonight.

His death was caused by pneumonia, an illness which he contracted during his service in the World War.

Two specifications are reported "to relate to the employment by the executive department of Joe Alvarado as a special police officer to hunt bank robbers. Legislators have charged that Alvarado himself used force to obtain money from banks."

DISREGARD COURTS
The One House member said the Governor's action in calling out the National Guard probably will be made the basis of an impeachment suit. Chairman H. R. Hays, who is investigating committee announced.

(Continued on Page 3, Column 3)

LEGISLATORS DEFEY TROOPS

Lawmakers Barred by Guns Agree on Meeting Today for Purpose of Impeaching Governor

OKLAHOMA CITY, Dec. 12. (AP)—Striking with the mailed fist, Gov. Johnston today prevented members of the Oklahoma House of Representatives from meeting in the State Capitol to consider his impeachment, but failed to overcome their determination to proceed with their program. Shortly after National Guardsmen armed with rifles and pistols had turned the legislators back at the doors of the House chamber this morning, a majority of the members met secretly at a hotel and agreed to convene again tomorrow to receive charges voted against the executive by an investigating committee.

RECALL WALTON RULE
The scene of tomorrow's session was not revealed, but it will be some place outside the Capitol.

Whether Gov. Johnston will attempt to have troops disperse the legislators tomorrow is a matter of speculation tonight. His directions to Adj. Gen. Charles F. Barrett were to suppress "all insurrectionary meetings whether held at the Capitol or any other place in the State."

RECALL WALTON RULE
The scene today at the Capitol with soldiers in full control recalled the day a little more than four years ago when Gov. Walton used troops to prevent a self-styled assembly of House members bent on impeaching him. Walton later was removed from office when he withdrew the iron hand and formally called the Legislature into session.

Gov. Johnston announced late today troops will remain on duty until the courts finally settle the question of the legality of the legislative session, which was convoked without his call.

"I intend to rely completely on the courts," he said. "Their ruling will be final to me and if they decide the session is legal and has a right to investigate and to impeach me, I shall abide by the decision."

"Meanwhile, to avoid chaos in State government, I have called out the troops."

"I put it off as long as possible. Today was the last day that such a course was open. If I had delayed another six hours, they would have come into this office and probably would have thrown me out bodily."

COURT AID INVOKED
The Governor explained that although martial law is not being declared formally, "the fact of calling out the National Guard clothes the military arm with power to enforce as if formal martial law had been declared."

Gov. Johnston fortified his legal position by obtaining a temporary restraining order from District Judge Chambers, forbidding the Legislature from returning impeachment charges against any officer.

The State Supreme Court, which already has declared the session to be without legal effect, is expected to decide the matter in a test case that was intended further to clarify the situation. It was an application for a writ of mandamus forcing the State Auditor to approve and the State Treasurer to pay claims of legislators, made incident to the session.

While the executive said he will relate to the employment by the executive department of Joe Alvarado as a special police officer to hunt bank robbers. Legislators have charged that Alvarado himself used force to obtain money from banks.

Payment of salaries of certain employees of the State Bank Department through the asserted illegality of deficiency certificates is another matter the House investigating committee inquired into.

OFFICERS IN HERRIN SHOT BY AUTOISTS

Men Standing Outside of City Hall Struck by Rifle Bullets from Car

HERRIN (ILL.) Dec. 12. (AP)—Bullets from a speeding automobile struck seven officers of the Illinois State Police, and one of them was killed, today when the car, driven by a man named McCormick, was shot through the back and neck and is wounded seriously. McCormick was shot through the shoulder.

The car circled the City Hall block twice, its occupants firing with rifles both hands. McCormick was shot through the back and neck and is wounded seriously. McCormick was shot through the shoulder.

The motive back of the latest shooting in this community is not known. Herrin, noted for sporadic outbreaks and killings since the mine riots of 1921, has been quiet for more than a year. Authorities could assign no reason for the shooting of the two officers.

The automobile from which the shots were fired sped out of town in the direction of Murphysboro and was seen by several witnesses.

Patrolman McCormick and his brother, the Mayor, with Stamm and one or two others were standing on the City Hall steps after a City Council meeting, when a crowd of men dashed by and its unrecognizable occupants fired a volley of rifle shots at the men.

Spectators said the car appeared unexpectedly, opposite the corner where the men were standing, fired several shots from what sounded like a machine gun, and then sped away. A few minutes later it appeared again, this time traveling at a much greater speed, and about the same number of shots were fired.

CAMPBELL RIVER (B. C.) Dec. 12. (AP)—The steamship Alameda left here tonight for Seattle with the 107 passengers and part of the crew of the Alaska liner Northwestern, which was wrecked ten miles south of here yesterday morning.

Capt. J. Livingston and part of the crew of the Northwestern will remain aboard the stricken ship until its disposition is determined. The other members of the crew were taken off early today. The ship is partly filled with water and may be a total loss.

Part of the Christmas mail and many tons of freight on the Northern Pacific were believed to have been irreparably damaged by water.

SALARY TAX RULING UPSET

Federal Circuit Court of Appeal Holds Wife's Pay Community Property in Roth Case

SAN FRANCISCO, Dec. 12. (Exclusive)—In a decision which will have a distinct bearing on the legal tangle induced by the California community property law, the United States Circuit Court of Appeal today held in the Roth case that the earnings of a man's wife are community property and the husband is responsible to the government for the payment of income taxes on the aggregate of his own and his wife's income.

The case has been pending since 1921 and is one of several of similar import. Thousands of married couples in the State will be affected by the ruling.

William A. Roth and his wife, Edith M. Roth, of Los Angeles, were employed by the Los Angeles Line Company, Mrs. Roth receiving a salary of \$5300. Roth's own income being "substantially greater." They filed separate income-tax returns, but in auditing them the revenue bureau lumped the two reports and assessed income tax against Roth on the sum of \$10,600.

Roth took the case to the Board of Tax Appeals, which reversed the ruling, holding that the earnings of both were community property and that the husband was liable for the tax on the aggregate of both incomes. The board held with Roth in his contention.

SUGAR MEN OF COUNTRY IN COMPACT

Formation of Institute of Stabilized Industry Decided at Meeting

NEW YORK, Dec. 12. (AP)—Formation of an American sugar institute for stabilizing the industry was decided on here today at a meeting of 100 executives of sugar companies, presided over by Earl D. Bahal, head of the American Sugar Refining Company.

The organization will compile statistics, examine tariffs and collect other information of general interest to the sugar industry. It will not function, it is asserted, as a price-fixing body.

The gathering is said to have been the largest of the industry since the war and brought about through invitations issued by a group of eastern refiners. Uniform trade practices, dissemination of more accurate trade information and improved marketing conditions are among the subjects discussed.

It is announced that plans for the formation of the institute have been submitted to the government and several committees appointed to work out plans for the project.

LAKESHIP SURVIVORS REACH LAND

Twenty Almost-Frozen Seamen Taken by Sleigh to Canadian Soo

SAULT STE. MARIE (Mich.) Dec. 12. (Exclusive)—Twenty survivors from the steamer Lampton, who were blown across Whitefish Bay in small boats after abandoning the vessel Saturday at 4 p.m., and who landed this morning at Goulais Bay, were brought into the Canadian Soo by sleigh tonight.

The yawl carrying the almost frozen seamen arrived at an Indian mission on Goulais Bay this morning. One man was drowned while attempting to get the yawl, in which they had taken refuge, ashore.

The Lampton is said to be a total wreck and its grain cargo ruined.

HORSEMAN BORSE RIDE OVERLAND

Cavalry Reservist Starts on Trip from East Coast to Los Angeles

NEW YORK, Dec. 12. (AP)—Mounted on a Morgan, thoroughbred horse 5 years of age, Lieut. Paul C. Linhard, an army reserve cavalry officer, started today on an overland ride of 3700 miles to Los Angeles. This is said to be a feat never before accomplished with one horse.

Lieut. Linhard plans to make the trip in eighty-four riding days, averaging forty-four miles a day. He is a member of Malverne (Long Island) post of the American Legion and is planning to visit members of American Legion posts.

The object of the trip, he says, is to obtain data for the army remount service.

He has been training his horse for the trip for two years.

Flyer Reports Highway Crash

MADERA, Dec. 12. (AP)—Soaring high above the highway, an air mail pilot yesterday afternoon saw an auto crash eleven miles south of here in which Mrs. Rose Ramirez was injured. The aviator notified the Madera officers after his arrival in Fresno. The injured woman was rushed to a hospital, where little hope is held for her recovery.

WORLD TO SEE COAST FROM AIR

Just as a lawyer first outlines his case and then presents arguments, the Los Angeles Times' forthcoming Annual Midwinter Number will first take the reader on a thrilling airplane flight from San Diego to Vancouver, and then bring him to earth, showing all the sights in detail.

Based on a world-wide travel survey, the 1928 Midwinter Number will seek to do for Los Angeles' tourist business what previous editions have done for industries, commerce and growth in population.

Six magazines will be almost squarely at the American traveling public's feet. Watch for advance order blank in next Sunday's Times.

San Diego taxes analyzed by Department of Commerce, Page 6.

Experts adopt outline of uniform motor-traffic law, Page 7, Part I.

FEAR SUICIDE

Lawyer Who Gives Funeral Maker and Vanishes

While police sought him to prevent a funeral for a woman, early today a program to end his life was being planned. Walter Watson, a friend, looking into the bay, when Watson's back was turned, "Go away," he explained that he had nothing to do with the woman's death. He had been a friend, he said, he had met her in 1925 when they were both in the automobile accident there. He was married as a result of the accident, but she died six months later. When the undertaking establishment refused to negotiate with him, he made the same proposition to members of the Methodist Church in San Jose, who also refused to consider a few days afterward he again visited the undertaking establishment, and he had changed his mind about ending his life, as he had found friends in San Diego and now had something to live for. He tried to hurry to get to San Diego but left hurriedly when suggestion was made that he should take up the matter with the police.

SHIPPING BOARD DECKS CLEARED

Coolidge Names A. H. Denton Successor to Hill

Curtailment of Teller Term Also Indicated

Swayne & Hoyt Control of Line in Danger

WASHINGTON, Dec. 12. (Exclusive)—President Coolidge started cleaning house in the Shipping Board when he named a successor to W. B. Hill, who was serving on the board from South Dakota under a recess appointment. The President sent to the Senate the name of Hill's successor early today and, calling Senator Norbeck to the White House, instructed to him the duty of breaking the tie. Hill was in the service of the Federal government, Senator Norbeck, on returning to his office, had a long conference with the three west coast lines for sale until the new commissioner is in office. Representative Will Wood of the Republican Congressional Committee has advised the President that a Congressional investigation can hardly be avoided unless the satisfaction plan of getting out of operation by the government of government-owned merchant vessels is handled with speed and wisdom.

TELLER MAY GO OUT
It also is indicated that the term of Commissioner Teller of California, which expires in June, may be curtailed unless something is done to replace him in the west coast lines, operating from Seattle, Portland and San Francisco, to obtain better bids. The new plan of the government for interchange of ports and less arbitrary rules for the operation of the ships than at present, permit private owners to make them profitable instead of losing money as at present.

It also was intimated at the Senate and the House today that the managing agents of the San Francisco line to the Orient, now under Swayne & Hoyt, may be changed immediately as part of the plan of the administration for economic and satisfactory operation of the west coast lines prior to their final sale to private bidders.

Two Neighboring Farmer Friends Take Own Lives
PETALUMA, Dec. 12. (P)—Two well-known ranchers living on adjoining farms in the Two Rocks district, near Petaluma, were found dead, suicides, today. As the men were close friends the possibility of a death pact was investigated, but nothing was found to support the theory.

WILL SAYS LOAN BY SHIPMAN LOST HIM JOB
WASHINGTON, Dec. 12. (P)—W. B. Hill of South Dakota resigned today as a member of the Shipping Board a few hours after President Coolidge had sent to the Senate the nomination of Albert H. Denton of Kansas as his successor.

SIGHT OF WILL HALTS SUIT FOR MILLIONS
ST. LOUIS, Dec. 12. (P)—Counsel for Fred L. Beely of Asheville, N. C., today dismissed his suit to obtain \$5,000,000 in stock of the Paris Company from the estate of his father-in-law, E. W. Grove, founder of the company. This action was taken after a will written by Grove in 1900 was introduced.

MISSOURI BANKER TAKEN IN SHORTAGE

WATERLOO (Iowa), Dec. 12. (P)—Olin V. Murfin, former cashier of the Farmers' and Merchants' Savings Bank of Lancaster, Mo., was arrested here last night on a charge of embezzling \$80,000 from the bank, which closed following his disappearance November 4.

LORD BEAVERBROOK'S DAUGHTER MARRIED

LONDON, Dec. 12. (P)—Hon. Janet Alston, only daughter of Lord Beaverbrook and the Lady Beatrice, was married today to Ian Douglas Campbell, heir presumptive of the Duke of Argyll, in St. Columba's Church of Scotland.

HEIRRESS TO MILLIONS TAKES VEIL AS NUN

CHICAGO, Dec. 12. (P)—Miss Jane Evelyn Cusack, 29-year-old daughter and heiress of the late millionaire outdoor advertising man, Thomas Cusack, has entered a convent, her friends learned today. Unknown even to her close associates, Miss Cusack entered the novitiate of the Dominican order at St. Ann's, Wis., last Wednesday.

ANTI-IMPERIALISTS TO MEET IN MEXICO

BRUSSELS, Dec. 12. (P)—Decision to call a special anti-imperialist conference in Mexico City at the end of May was reached today by the executive committee of the Anti-Imperialist League now in session here. The purpose of the conference will be to group all Latin-American countries against "North American financial, economic and political imperialism."

MINER DROWNED AS WATER HOLE BREAKS

LANSPORD (Pa.) Dec. 12. (P)—Joseph Valencki, 60 years of age, a miner, was drowned at the third level of the No. 9 colliery of the Lehigh Coal and Navigation Company today, when water breaking through from a water hole swept through one of the lower gangways.

LINDBERGH WILL FLY IN 10 DAYS

Continues Mexico Plans Despite Weather

Hero Makes Test of Army's New Amphibian

Senate Follows House by Voting of Medal

WASHINGTON, Dec. 12. (P)—Undismayed by reports of poor weather conditions, Col. Charles A. Lindbergh pushed steadily forward today with preparations for his flight from Washington to Mexico City. The daily activities included a consultation with officials of the Weather Bureau and the navy hydrographic office—after which he announced the flight could not be begun for at least ten days—luncheon with the commanding officer at Bolling Field and an afternoon spent inspecting the work of army mechanics on the Spirit of St. Louis and in testing the Army's new Landing headquarters plane.

WOMAN IN BANDIT CASE HELD INSANE
Two Alienists Testify in Favor of Mrs. Rogers' Bank Robbery Trial

LA GRANGE (Tex.) Dec. 12. (P)—Two alienists, one of whom had her under observation for two days, testified today at the trial of Mrs. Rebecca Bradley Rogers on a bank robbery charge that she is insane. Dr. Wilmer Allison of Fort Worth and Dr. Livingston Anderson of Austin, head of the bureau of communicable diseases, State Board of Health, in answer to hypothetical questions, declared unequivocally the young woman, whose mentality was such that, prior to robbery of the bank at Bufo last December, she was a student at the University of Texas, is not sound minded.

Two Neighboring Farmer Friends Take Own Lives
PETALUMA, Dec. 12. (P)—Two well-known ranchers living on adjoining farms in the Two Rocks district, near Petaluma, were found dead, suicides, today. As the men were close friends the possibility of a death pact was investigated, but nothing was found to support the theory.

WILL SAYS LOAN BY SHIPMAN LOST HIM JOB
WASHINGTON, Dec. 12. (P)—W. B. Hill of South Dakota resigned today as a member of the Shipping Board a few hours after President Coolidge had sent to the Senate the nomination of Albert H. Denton of Kansas as his successor.

SIGHT OF WILL HALTS SUIT FOR MILLIONS
ST. LOUIS, Dec. 12. (P)—Counsel for Fred L. Beely of Asheville, N. C., today dismissed his suit to obtain \$5,000,000 in stock of the Paris Company from the estate of his father-in-law, E. W. Grove, founder of the company. This action was taken after a will written by Grove in 1900 was introduced.

MISSOURI BANKER TAKEN IN SHORTAGE

WATERLOO (Iowa), Dec. 12. (P)—Olin V. Murfin, former cashier of the Farmers' and Merchants' Savings Bank of Lancaster, Mo., was arrested here last night on a charge of embezzling \$80,000 from the bank, which closed following his disappearance November 4.

LORD BEAVERBROOK'S DAUGHTER MARRIED

LONDON, Dec. 12. (P)—Hon. Janet Alston, only daughter of Lord Beaverbrook and the Lady Beatrice, was married today to Ian Douglas Campbell, heir presumptive of the Duke of Argyll, in St. Columba's Church of Scotland.

HEIRRESS TO MILLIONS TAKES VEIL AS NUN

CHICAGO, Dec. 12. (P)—Miss Jane Evelyn Cusack, 29-year-old daughter and heiress of the late millionaire outdoor advertising man, Thomas Cusack, has entered a convent, her friends learned today. Unknown even to her close associates, Miss Cusack entered the novitiate of the Dominican order at St. Ann's, Wis., last Wednesday.

ANTI-IMPERIALISTS TO MEET IN MEXICO

BRUSSELS, Dec. 12. (P)—Decision to call a special anti-imperialist conference in Mexico City at the end of May was reached today by the executive committee of the Anti-Imperialist League now in session here. The purpose of the conference will be to group all Latin-American countries against "North American financial, economic and political imperialism."

MINER DROWNED AS WATER HOLE BREAKS

LANSPORD (Pa.) Dec. 12. (P)—Joseph Valencki, 60 years of age, a miner, was drowned at the third level of the No. 9 colliery of the Lehigh Coal and Navigation Company today, when water breaking through from a water hole swept through one of the lower gangways.

REEDS CLASH IN DEBATE ON VARE

Missourian Wins Vote for Slush Fund Committee

Calls Pennsylvania Cousin "Only Honest Man"

Meeting Today Will Prepare Further Investigation

WASHINGTON, Dec. 12. (P)—By a decisive vote of 58 to 21, the Senate today ended the feud of its only two cousins—"Dave" Reed of Pennsylvania and "Jim" Reed of Missouri—formally reaffirming the authority of its special campaign funds committee headed by the Missourian.

Reed of Pennsylvania, who gained the upper hand when he led a successful filibuster at the close of the last session, which prevented a vote on the proposal to continue the committee submitted almost without a struggle today as the Missourian Reed drove through his resolution after leading the Pennsylvania Senator.

COMMITTEE TO MEET
Ordered to carry on, the committee of which Reed of Missouri is chairman will meet tomorrow to map plans for resuming its investigation into the Pennsylvania and Illinois primaries last year. On the basis of its partial report the Senate refused to override the majority last week to administer the oath to Frank L. Smith of Illinois and William S. Vare of Pennsylvania, both Republicans, pending a further hearing before the Reed committee.

Smith and Vare, in presenting arguments why they are entitled to Senate seats, will stress, among other points, their election after the Reed inquiry more than a year ago. During a brief discussion which preceded the Senate vote, Reed of Missouri declared that the Pennsylvania Reed had "betrayed" his plan "by leading the filibuster" in the closing days of the last session against the resolution to continue his committee during the recess. Then he referred to his distant cousin as "the only honest man of his generation."

CALLS COUSIN HONEST
"The injured innocent attitude of the Senator from Pennsylvania is amusing," the Missouri Democrat said. "Future generations will go to his shrine to see the inscription on it of 'The Only Honest Man of his generation.'"

In reply Senator Reed of Pennsylvania said he realized there were enough votes to continue the special committee, but added his objection to that portion of the resolution which declared the committee had continued "in full force and operation" during the recess of Congress.

On the roll call only one Democrat, Blaine of South Carolina, joined with twenty Republicans in voting against a continuation of the committee's authority. Sixteen Republicans and the one Farmer-Labor Senator, Minnesota, cast their votes with forty-one Democrats to reassert the authority of the committee.

Illness Closes
Mantell's Tour

COLUMBUS (O.) Dec. 12. (P)—Robert Mantell, 73 years of age, Shakespearean actor who suffered a mental breakdown here Friday while saying an engagement at Columbus Theater, is to be removed to a home at Atlantic Highlands, N. J., it is announced. All engagements for the remainder of the season have been canceled and the entire company will return to New York.

Football Injury Fatal

AKRON (O.) Dec. 12. (P)—Joseph Schoch, 25 years of age, Akron college and senior football star, died today from a brain abscess, the result of a gridiron injury.

DELEGATION ASKS FLOOD CONTROL AID

Californians Make Plea on Sacramento River at House Hearing

WASHINGTON, Dec. 12. (P)—The hearings of the House Flood Control Committee, which is drafting legislation to meet the problem of the Mississippi, took a new turn today when a delegation from California appeared to make a plea for Federal aid in holding the Sacramento River within its banks.

The Californians asked the government to bear one-third of the cost of a flood-control project in the Sacramento Valley, the remainder to be shared equally by the State and adjacent landowners. Under the plan, the government would own one-sixth of the bill and the State one-sixth, with the remainder borne by the property holders.

Clarence E. Jarvis of Sacramento, president of the California Flood Control Board, said the group outside the system of by-pass diversion channels which he recommended as the most effective means of controlling the water of the river.

He said the State is willing to cooperate in any way possible to reach a compromise with the Federal Government.

Stephen Downey of Sacramento outlined the legal phases of the proposed change in the division of the expenses. The effect of the floods on the agricultural development of the valley was described by Prof. E. A. Richevery of the University of California.

LARGE SUM FOR SOLDIER HOME ASKED
Bill Seeks \$2,100,000 from Congress for Barracks; Other Funds Urged

WASHINGTON, Dec. 12. (P)—A request for an appropriation of \$2,100,000 for the construction of twelve barracks at the Pacific branch of the Soldiers Home, located at Safford, Los Angeles county, Cal., was made in a bill introduced in the House today.

The huge appropriation bill was presented by Representative James of Michigan, who is chairman of the Army housing sub-committee of the House Military Committee.

A bill authorizing the construction of technical buildings at army aviation stations to replace war-time structures, at a total cost of \$3,007,716, also was introduced today by Representative James.

The buildings include hangars, warehouses, machine shops, parachute, radio and photographic structures. The preparation and improvement of landing fields also would be provided under the measure. The measure does not include the construction of quarters for officers or men, Mr. James said.

The authorization for new buildings under the bill amounts to be expended include:

Wright Field, Dayton, O., total of \$1,200,000; Bolling Field, Washington, \$300,000; Kelly Field, San Antonio, Tex., \$610,000; Middletown air depot, Middletown, Pa., \$117,500; March Field, Riverside, Cal., \$101,000, including radio, photographic and school buildings; \$46,000; Mitchell Field, L. I., \$294,000; Selfridge Field, Mt. Clemens, Mich., \$351,264.

DEMOCRATS WIN WESTERN SENATORS FAVORED

Reduce Corporation Rate as G.O.P. Naps

Republicans to Renew Fight on Floor of House

Moved to Increase Personal Exemption Defeated

WASHINGTON, Dec. 12. (P)—The House Democrats today succeeded in amending the revenue bill to materially reduce the tax rate on net corporation incomes of \$15,000 or less. The proposal was sponsored by Representative of California, a Republican, and was opposed by the House minority member of the Ways and Means Committee, which drafted the measure. It was opposed by Chairman Green and the vote, 196 to 132, largely was along party lines.

Except for this thrust, the Democrats made no concerted effort to penetrate the cordon of Republican votes that Mr. Green, after his unexpected defeat, kept on the floor to defend provisions of the measure.

ATTACKS FUTILE
Throughout the day, however, some Democrats joined with a handful of Republicans in taking sporadic shots at the revenue bill, but these attacks proved futile.

Although the Democrats scored one victory, Mr. Green indicated he will seek to nullify it before a final vote on the measure, by demanding a record vote on the corporation-income reduction. The bill, which would reduce the rate from 15 to 12 1/2 per cent, to apply to payments due after March 15, and increase from \$2000 to \$5000 in the amount of income exempted from taxation.

FURTHER BENEFITS
The Garner amendment, which Republican opponents of Illinois Republicans, estimated will add \$24,000,000 to the \$23,735,000 reduction proposed by the bill, will grant a further reduction to corporations with a net taxable income of not more than \$15,000, as follows:

Income up to \$15,000, 12 per cent rate will be 5 per cent on a net taxable income of \$7000 or under; 7 per cent on income between \$7000 and \$15,000; and 12 per cent on income more than \$15,000 and not more than \$15,000.

The reduction of the present normal and surtax rates on individual incomes was approved by the House after the rejection of an amendment by Representative La Guardia, Republican, New York, to add an additional 30 per cent tax on incomes over \$100,000.

The latest schedule of personal exemptions also was adopted, but not until after the House had turned down an amendment by Representative La Guardia, Republican, New York, to add an additional 30 per cent tax on incomes over \$100,000.

The retention of the present regulations governing publicity of tax returns also was approved without discussion. This is in contrast to the House action on the bill of the House of Representatives to revise old provisions which called for the making public of tax returns.

The provision to make the 2 per cent reduction in the corporation-tax rate apply for the first time to payments due in 1929, but no move in that direction was made.

Dam Hearings Slated to Open After Holidays

WASHINGTON, Dec. 12. (P)—Chairman Smith of the House Irrigation Committee, announced today that hearings on the Boulder Canyon Dam project are scheduled to start during the first week in January.

Representative Swing of California, author of the bill, however said that if the measure is returned to Congress sooner by Secretary Work, who has been examining it, that he will endeavor to start the hearings the latter part of this month.

"In the meantime I hope that the seven States can negotiate an agreement to solve the problem of distribution of Colorado River waters," Swing said.

"If the States do not come to some understanding, it will be the duty of Congress to enact legislation to accomplish that part of the project."

BRIDGE FRANCHISE REHEARING ASKED

MARTINEZ, Dec. 12. (P)—Declaring they wished to determine definitely whether the franchise of the American Toll Bridge Company, operating the cantilever span over Carquinez Strait and other toll bridges, are valid, the Contra Costa Board of Supervisors today voted to petition the California Supreme Court for a rehearing of the decision handed down recently. This decision came after the Northern California Development Company, refused a franchise to build a second toll bridge across Carquinez Strait, had sought to force the Contra Costa Supervisors by mandamus either to grant the franchise or submit the question to a county referendum vote. The Supreme Court refused to grant the petition.

UNIVERSITY GETS LAND FOR FRUIT TEST FARM

SACRAMENTO, Dec. 12. (P)—Completion of arrangements for leasing the farm lands at the Women's Relief Corps Home near San Jose to the University of California for its deciduous-fruit experiments was announced today by Senator Lyman M. King, chief of the division of service and supply in the Department of Finance. The university has conducted an experiment station near San Jose for some time but has been restricted to a great extent by lack of land. The relief corps' home is unable to use the farm land to advantage without employing expensive help and the fruit trees are held to be of a variety that does not justify such an outlay.

LINDEN GETS PERMANENT RADIO POST

SAN FRANCISCO, Dec. 12. (Exclusive)—Bernard H. Linden, acting supervisor of radio in the Sixth (Pacific Coast) District since the late Col. John H. Dillon was appointed a member of the Federal Radio Commission, received word from Washington today that his Christmas present from the government is a permanent appointment to the post of supervisor. Countless friends of the supervisor began showering him with telegraphic congratulations as soon as word of the appointment became known.

Simultaneously E. W. Lovejoy, Linden's assistant, was advanced from junior to senior grade in the inspection service of the Bureau of Navigation.

Linden's appointment is expected to meet with general favor on the Pacific Coast, neighboring States and Hawaii, as his conduct of the office while he acted head had drawn favorable reports, both from a technical and administrative standpoint.

Upon the death of Col. Dillon recently it was hoped many that Linden would be given the commission made vacant at that time, but he was not fortunate enough to get the appointment from Washington.

ELIAS MAY TALK, MEXICO DECIDES

Voluntary Information to Senate Unobjectionable

Ambassador Ruled Only One to Speak Officially

Thorough Quiz on Hearst Charges Prepared

MEXICO CITY, Dec. 12. (P)—The Mexican government has no objection to the Mexican Consul-General, Arturo M. Elias, giving the Senate committee in Washington such information as he personally voluntarily pleases. Acting Foreign Minister Narda announced in an official statement today. But, he added, the only Mexican official in the United States who is authorized to receive requests for official information is the Mexican Ambassador.

"If Consul-General Elias," says the statement, "desires to give voluntarily the Senate committee the information asked of him, and do it in a personal manner, it will not be the Mexican government that will object to greater light being thrown upon the scandalous calumnies. The only representative of Mexico empowered to receive requests for official information is our Ambassador at Washington."

ELIAS CAN'T BE CALLED PRECEDENTS INDICATE

WASHINGTON, Dec. 12. (P)—Disregarding the view of the Mexican Ambassador that the Senate is powerless to summon officers of his government before its committee, the special committee named to inquire into charges published in Hearst papers that a fund of \$1,200,000 was created by Mexico to influence four United States Senators went ahead today with plans for a thorough investigation.

Already a subpoena has been issued by the committee for Arturo M. Elias, Mexican Consul-General at New York. The committee expects him to testify, although the Mexican Embassy has announced that no right exists to call Elias.

The State Department again declined today to discuss the international complications that might be involved in the attempt of the Senate committee to subpoena Elias. The examination of international law precedents appears to make it clear, however, that a consular officer cannot be required to produce in the courts of the country to which he is assigned any of the books or records of his office or to answer any question involving the affairs of his own government. This appeared to be the conclusion of such writers on international law as John Bassett Moore.

A showdown probably will come soon after the committee begins its open hearings Thursday. The hearings were delayed until that time to permit all members of the committee to be present.

SCHOOL GEOGRAPHY EDITION COMPLETE

SACRAMENTO, Dec. 12. (P)—Completion of the first edition of 90,000 volumes of a new grammar-school geography text book was announced today by Carroll H. Smith, State printer. The books were printed by the State for \$32,486.75, or an average cost of 36 cents. Smith also announced completion of 25,351 second-year arithmetic books at an average cost of 23 cents. The total bill for this job was \$558,375.

LINDEN GETS PERMANENT RADIO POST

SAN FRANCISCO, Dec. 12. (Exclusive)—Bernard H. Linden, acting supervisor of radio in the Sixth (Pacific Coast) District since the late Col. John H. Dillon was appointed a member of the Federal Radio Commission, received word from Washington today that his Christmas present from the government is a permanent appointment to the post of supervisor. Countless friends of the supervisor began showering him with telegraphic congratulations as soon as word of the appointment became known.

Simultaneously E. W. Lovejoy, Linden's assistant, was advanced from junior to senior grade in the inspection service of the Bureau of Navigation.

Linden's appointment is expected to meet with general favor on the Pacific Coast, neighboring States and Hawaii, as his conduct of the office while he acted head had drawn favorable reports, both from a technical and administrative standpoint.

Upon the death of Col. Dillon recently it was hoped many that Linden would be given the commission made vacant at that time, but he was not fortunate enough to get the appointment from Washington.

Linden has been in the radio industry virtually all of his life to date. He began as an amateur in 1904.

TAX INVESTIGATION SECRETARY NAMED

SACRAMENTO, Dec. 12. (P)—Irving Martin, chairman of the California Tax Commission, today announced the appointment of Miss Josephine A. Patten as secretary of the tax investigating body. Miss Patten served from 1915 to 1920 as secretary of the California State Water Commission, and prior to that was co-secretary of the Conservation Commission headed by ex-Gov. Pardee. She also was secretary of the Water and Power Board.

HEARST OFFERS OPINION

NEW YORK, Dec. 12. (P)—William Randolph Hearst in an article to be published in the World tomorrow, says Senator Reed of Missouri has the best chance of being elected of any of the candidates in the field for the Democratic Presidential nomination. But that Gov. Smith of New York has the best chance to win the nomination.

Bert Colima and Charley Long Tangle in 10-Round Battle at Olympic This Evening

MEXICAN BOXER PICKED TO WIN

Fans String With Local Boy in Tonight's Bout

Long Has Kayo Win Over Bert to His Credit

Ernie Owens is Favorite in Semi-Wind-up Scrap

BY KAY OWEN

Bert Colima is the favorite to spoil Christmas for Charley Long when the two meet in a return bout tonight at the Olympic over the ten-round route.

Long, on the outside, is not only planning to throw a lot of punches around Christmas in the Colima home, but the new first as well. For if Long repeats his kayo over the Mexican, he has been promised a \$5,000 prize by the promoter.

Colima, who is a good-sized fighter, is not only planning to throw a lot of punches around Christmas in the Colima home, but the new first as well. For if Long repeats his kayo over the Mexican, he has been promised a \$5,000 prize by the promoter.

TO EXAMINE TIGHTS

Pete Byrne, who is handling Long for this scrap, will examine Colima's tightness tonight and insist that the referee keep the Mexican from wearing his tight up under his arms.

Colima doesn't like body punches and I think he will fold up here just as he did in Oakland," says Long.

The Mexican has trained with body punches in the gym and he believes he can keep himself out of the fighting with Long.

However, Colima made a bad showing trying to keep Ace Hudkins at long range and Long learned his stuff from the Wildcat.

Long spent over a year in the Hudkins stable where his chief duty was to act as Ace's sparring partner. Then he went to Australia where he became quite a star.

It was the Colima bout in Oakland that took for his first fight on his return. If that is the stride which Long is setting he may upset the dope tonight again.

Usually a fighter, who has been stopped, goes into a rematch on the short end, but Colima is a bit different. The Mexican has never had a match since he became a top liner in which he wasn't at least even money.

Even if Colima boxed Lemski one "would probably find the Whittier boy close to fifty-fifty gamble."

OWENS FAVORITE

Ernie Owens is choice over Jack Darnell in the eight-round semi-wind-up. Darnell will outweight Owens, but he has had the experience of the Los Angeles box. Owens stopped Oscar Baker at Oliver City his last start and he will try to add another kayo to his string in the Mitchell Field soldier.

Owens has boosted his weight up to around 145 pounds. Mayers intends to send the big fellow after the real heavyweight money in 1938 if he can stand the gut.

Three four-round bouts complete tonight's card. Mike Waters meets Frankie Fitcher at 135 pounds. Ole McKittick and Billy Engman are also lightweights. Two more heavyweights—Clyde Coleman and Dick Dundee—open the show.

Long is expected to scale 150 and Colima 145.

FEG MURRAY'S SPORT CHAMPS

(Continued from First Page)

handful, by comparison, lost their crowns in the year that is now drawing to a close.

That's about the list of those who kept their titles. In baseball the Yankees again won the American League pennant. Babe Ruth, home-run king of 1926, retained his crown with added jewels in 1927. The home-run king was featured by Gene Tunney's gallant defense in his prize fight title, with or without the aid of a long count, as you prefer to look at it. The ancient and honorable name of golf had at the end of 1926 Bobby Jones enrolled as British and United States open champion and Walter Hagen as United States professional champion. A year later finds the same two gentlemen at the top, Jones as British open champion again, but holding his third United States amateur crown, instead of the United States open championship. Hagen, in winning the Professional Golfers' Association championship for the fourth time in succession, proved that the Scotch pastime isn't such a staid game as most people think.

In tennis, Rene Lacoste, of France, successfully defended his United States title, which he won in 1926, and Johnnie Watson, of England, proved his right to be called the greatest swimmer in the world again in 1927. Hagen, who belongs in a group of stars of the year, but this particular piece is about the champions of 1926 who retained their titles in 1927. Holm won back her United States championship and gained the Wimbledon title as well, but did not hold either crown the year before.

Among those who lost, include Stanford, Alabama and the Navy in football; the Cardinals in baseball; McGuffee and Lato, in boxing; Von Elm and Mrs. Steaton, golf; Mrs. Hainey, in tennis; and the University of Southern California track team.

GENE TUNNEY PLAYS SANTA

(Continued from First Page)

formal reception at the City Hall. The heavyweight champion will go out to Edward Hines Memorial Hospital to shake hands with several hundred veterans, and stop in at a crippled children's hospital on his return.

Robert M. Switzer, county clerk, will be toastmaster at the banquet, and the proceeds will be turned over to the Chicago newspapers to buy Christmas baskets for distribution among the poor.

HARMON WHIPS ZIVIC

PITTSBURGH, Dec. 12. (AP)—Willie Harmon, New York lightweight, won a decision here tonight over Jack Zivic of Pittsburgh. They fought ten rounds.

PANTHERS BOAST FLOCK OF GREAT GRID STARS

(Continued from First Page)

toos the leather to Hagen, Welch, or one of the ends, with annoying accuracy. One of Booth's greatest accomplishments is his ability to make a touchdown count for seven rather than six points. He has been extremely reliable at adding the extra, and all-important point from placement in the Pits State game, he counted four straight and in the Nebraska contest, three without a miss.

Doneshue or Guarino, but do not be frequently mentioned for places on all-star eleven, but according to Pitt fans make up about as great a pair of ends as can be found in the country this year. The Panther supporters readily admit that there are better wing men than either Doneshue or Guarino, but declare that as a pair, their services can't be beaten. The Pittsburgh flank men are particularly effective at getting down under punts to loosen opposing safety men's teeth with a hard tackle. Either Doneshue or Guarino receives punts, both are good defensive players.

Roberts' work at right guard has been one of the high lights of Pittsburgh's line play this year. This big fellow specialized in breaking through to stop a ball carrier behind the line of scrimmage. His work on defense has not been widely hailed, however, is reputed to be a worthy successor in a long line of great Pitt centers, which began back in the days when "Pop" Warner coached at Stanford. Sutherland, present Panther coach, played at the University of Pittsburgh.

Parkinson, Panther quarterback, has not been very widely hailed, mainly because he is not a spectacular player. The Pitt field general excels himself mainly with calling the plays, running interference, and bolstering up the secondary defense. The fact remains, however, that Parkinson has handled the Pittsburgh offensive machine capably all season, and is considered an extremely valuable man by Coach Sutherland.

Sutherland is taking no chances on having the California climate sap the strength of his players. The Pittsburgh delegation is delaying its start for Pasadena until the day after Christmas. The Panthers will arrive in the city on the day after Christmas, and will have a practice game on the day after that. Sutherland is taking no chances on having the California climate sap the strength of his players.

PANTHERS STEP THROUGH PACES

PITTSBURGH (Pa.) Dec. 12.—Withing to take full advantage of the ex-

cellent weather, the Panthers stepped through the line of scrimmage with a vengeance today. The team, which had been held back by a cold front, broke through the line of scrimmage with a vengeance today. The team, which had been held back by a cold front, broke through the line of scrimmage with a vengeance today.

ANGELS AND BELLS SWAP

Bettencourt Refuses Pro Grid Offers

OAKLAND, Dec. 12. (AP)—Lawrence Bettencourt, all-American center on the St. Mary's College football team, said today that he would remain in college until he graduates next June and would not accept professional offers at this time.

Bettencourt was offered \$500 a game to play with Red Grange's professional football team and also considered offers from the New York Giants and Pittsburgh Pirates, basketball stars of the National League.

OBSERVATIONS

BY THE UNOBTAINABLE, HILL HENRY.

UNOBTAINABLE PRINT

It is a little more than a week since the Bruins took on the strong University of California at Los Angeles tonight Friday night. The battle will probably be waged at the Hollywood High School. The two teams do not meet in conference competition this year, the Bruins having graduated into the Pacific Coast Conference, so Coach Caddy Works and Colvin Heath got together and arranged a practice tilt.

Pomona has only been at work for a little more than a week, so the Bruins ought to have a pleasant evening with them, but there is enough talent in the Sageshen outfit to make things interesting. Bruce Wilkins, forward, and Clarence Bishop, center, have not yet been able to work out, both having injuries. Capt. Harold Sterritt, Jack Marshall and Lew Patton are the stars of the Sageshen outfit.

Led by Capt. Jack Ketchum, the Bruins ought to be in good shape this year as they have been in past years when they were either the champions of the Southern Conference or tied for the top honors. Caddy Works' quip-

Each Farmer, the Man in the Iron Hat, will probably shoulder at the next suggestion from the building of a second collection. This one, as our reader points out, is not a collection of "pops," but a collection of 25,000 people, and we'll certainly need something of that kind around here sometime. The Bruins could do a whole lot worse than to spend a few thousand dollars fixing up their own private hall park on Vermont avenue to seat about that many football fans. They'd make some money by it.

Lost in the welter of news and gossip on the football sport page was an interesting item. It announced that the United States Tennis Association had unanimously voted to defend the Davis Cup in the American zone, anything very exciting until you couple it up with another news item that the Davis Cup will be held in the Pacific zone and should send Tilden. Hunter and four youngsters over there for the summer to do as he added: "Hunter and myself will go over there regardless of where we look the cup."

It comes from the decision as though the U.S.T.A. didn't give much of a when what Reddy thought about the Davis Cup and the best procedure of defending it. Apparently the association proposes to take a flock of youngsters like Doug, Chandler, White, Ladd and so on, and let them have the experience of playing against Cuba, Mexico, Japan and Canada here in this country with the idea that if they emerge in good shape they can then go over to the European zone and take on the winners of the play over there, which is almost certain to include an Australian team.

INDIAN CHOOSES NOT TO RUN IN MARATHON

SAN FRANCISCO, Dec. 12. (AP)—Big White Deer, Karok Indian from Happy Camp, Cal., who participated in the Redwood Empire marathon race last June as an entry from Grants Pass, Ore., is not a candidate for honors in next year's race. He has been asked to run in the 1938 marathon by the committee, the following cryptic message:

"I do not choose to run in 1938." Redway says the 1938 Redwood marathon will be international in scope with American Indians, aborigines from the South Sea, the Orient, Central and South American countries.

ARMOUR, CRICKSHANK WIN GOLF EXHIBITION

FREEMO, Dec. 12. (AP)—Tommy Armour, national open champion, and his barnstorming partner, Bobby Cruickshank, defeated Morris and Olin Dutt, Tacoma (Wash.) and Fresno professionals, 4 and 2, in an eight-hole exhibition match here this afternoon. Armour has the best record, a 71, one under par. Cruickshank had a 73 and the Dutts had 74.

SAGEHEN TOSSERS TO PLAY BRUINS FRID

CLAREMONT, Dec. 12. (Exclusive)

Playing their first practice game of the season, Pomona's varsity basketball team took on the strong University of California at Los Angeles tonight Friday night. The battle will probably be waged at the Hollywood High School. The two teams do not meet in conference competition this year, the Bruins having graduated into the Pacific Coast Conference, so Coach Caddy Works and Colvin Heath got together and arranged a practice tilt.

Pomona has only been at work for a little more than a week, so the Bruins ought to have a pleasant evening with them, but there is enough talent in the Sageshen outfit to make things interesting. Bruce Wilkins, forward, and Clarence Bishop, center, have not yet been able to work out, both having injuries. Capt. Harold Sterritt, Jack Marshall and Lew Patton are the stars of the Sageshen outfit.

Led by Capt

Fullerton, Santa Maria Grids to Meet, But Nobody Knows Where

FIELD MAY BE CHOSEN TODAY

Title Game May Take Place Friday at Coliseum

Wrigley Field or Rose Bowl May Land Grid Clash

Fullerton, Long Beach Also Considered by Heads

BY BOB RAY

The football eleven of Santa Maria and Fullerton are going to meet sometime this week-end to decide the Southern California prep grid championship, but as far as anybody knows just where they are going to do their battling. The game was originally scheduled to take place at the Coliseum Saturday day but the firemen and police threw a monkey wrench into that plan by postponing their annual clash last Saturday because of rain. Zack Barker decided to let the cops and smoke-eaters have the Coliseum Saturday instead of the prep game because he uses a lot of police protection out at his big bowl during the grid season and because it's a civic enterprise and for charity. However, the decision left the prep out in the cold and so far they haven't decided when and where they'll hold the game.

The game is listed as a home game for Fullerton and it is up to the officials of that school to make the decision. Right now they have several plans under consideration and will meet today to officially make a decision.

MAY PLAY ON FRIDAY

Plan No. 1 is to hold the game in the Coliseum on Friday, but the officials are wary of this plan because Friday games don't draw many fans. The idea is to hold the game on Saturday because that Saturday would be a better day for the game even if the teams don't get to use the Coliseum.

Plan No. 2 is for the game to take place at Wrigley Field. If the prep would play at Wrigley Field it's a pretty good bet that they would outdraw the fire-police game, because the Fullerton and Santa Maria outfits are evenly matched and figure to put up a whale of a battle.

Plan No. 3 is to hold the game in Rose Bowl, but this idea is not so hot because football fans are poor for only about one trip to the Bowl, and that is for the New Year's Day game.

There are two other plans considered by the Fullerton officials. One is to hold the game at Fullerton, but it stands to reason that the game wouldn't draw as many fans there as it would at Wrigley Field.

The other idea is to hold the Santa Maria-Fullerton game at Long Beach in conjunction with the Fullerton-Long Beach class C championship. Personally, we think that that is the second best plan, with Wrigley Field still the most favorable spot in the writer's mind.

TEAMS WORKING HARD

While the officials are wrangling over a field on which to play the game, both the Fullerton and Santa Maria elevens are working hard for the coming clash.

Fullerton will enter the game minus the services of Seidem Del Giorgio, star tackle, who has chipped a bone off his elbow in the Covina fracas. However, the Indians are still pepped up and believe that they can trim Santa Maria. Upsetting Covina gave the Fullerton players a lot of confidence.

Up at Santa Maria, Coach Herrell let his players off with a light signal drill. The Saints were pretty bruised up in the Huntington Park game Saturday. There is still some doubt as to whether "Chuck" Ryan, star halfback, will be able to start against Fullerton. Ryan hurt his ankle against Burbank and Herrell intended to keep him out of the Huntington Park battle. However, Herrell was forced to put Ryan in the second half and "Chuck" responded by intercepting a pass and running it to the Spartan 15-yard line, paving the way for the tying touchdown. Ryan hurt his ankle on that long dash and had to leave the game soon after.

Herrell also planned to keep Walter Marlett, tackle, out of the Huntington Park game to give a couple of broken ribs a rest. However, Marlett also had to enter the fray and he played almost three quarters in a cast. It was fortunate for the Saints that he was not hurt.

Fullerton Grid Team Conquers

Dauer's 45-yard run to a touchdown in the first period enabled the Fullerton Lightweights to note out the El Monte High team yesterday by a 7-to-0 score in the semifinals round of the Southern California lightweight playoffs. By virtue of yesterday's victory the Fullerton youngsters move into the final game of the play-off when they tackle Long Beach for the title. Dauer grabbed a punt and ran through the El Monte team for a 45-yard touchdown in the first quarter. He converted it adding the extra point to Fullerton's score. Last week Fullerton and El Monte battled to a 7-to-7 tie.

El Monte (7): Williams, quarterback; Power, fullback; Kiefer, halfback; Coleman, left guard; Ryan, right guard; Herrell, center; Brown, left tackle; Powell, right tackle; Smith, left end; Jones, right end.

Fullerton (0): Dauer, quarterback; Smith, fullback; Jones, halfback; Brown, left guard; Ryan, right guard; Herrell, center; Powell, left tackle; Kiefer, right tackle; Williams, left end; Power, right end.

SCORE BY PERIODS: 1st 7-0, 2nd 7-0, 3rd 7-0, 4th 7-0. Total 7-0.

Touchdown-Dauer, Goal after touchdown-Dauer.

ROCHESTER CLUB IN TRADE WITH MONTREAL

ROCHESTER (N. Y.) Dec. 12. (AP)—The Rochester club of the International League has traded outfielders Gilbodey and Murphy and pitcher Toomahen to the Montreal club of the same league for outfielder Shannon and first baseman Monahan and a cash consideration, John G. Sel, Rochester manager, has announced.

A.A.U. CROSS-COUNTRY RUN AT POMONA THIS WEEK-END

A mammoth cross-country run is scheduled to be held this Saturday at Ganessa Park, Pomona, under the auspices of the A.A.U. and the Breakfast Club. There will be three classes of entries. Class one, for high schools of over 1200 enrollment, class two, high schools of under 1200 enrollment, and class three, for clubs, colleges and open amateurs. The class three race will have plenty of competition in it as the Sherman Indians, San Diego State, Occidental, U.C.L.A., U.S.C. and the L.A.A.C. are expected to enter strong teams.

EVERY RECORD ON BOOKS SMASHED AT HYDRO RACES

(Continued from First Page)

former world record of 52.03 miles per hour, established at Houston, Tex., last July, put up a plucky fight to retain pole position. The eight trophy and pushed Spitfire V to a record. But for a clogged gas line on the last lap of the fifth heat, Loyones would have beaten Spitfire's record. He turned the first water and was two and a half miles at the terrific speed of 58.68 miles an hour, and was leading Spitfire V by 200 yards when his motor momentarily died. As it was, Miss California trailed the former record with a speed of 54.20 miles per hour.

The poor weather of the first two days of the series was reversed this morning. Warm sunshine and smooth waters made ideal racing conditions for the temperamental speed boats.

Four hydros in the unlimited class, equipped with superchargers, turned out for the second heat at 11:45. Spitfire V shot into an early lead with Elmer Johnson's Sparrow, of Huntington, Vt., a class C, second. Hammond's Westchester of Larchmont, N. Y., was in third place with Miss California trailing a minute.

Spitfire V buzzed around the first lap at 54.45 miles per hour, but slowed up on the second lap for an average of 51.87 miles per hour, slightly under the record. Sparrow burned out a bearing and Miss Westchester slid into second place. Miss California also went out after the first lap with engine trouble.

MISS WESTCHESTER DROPS OUT

Coming back strong, Miss California walked away from the fleet to break her own record with a speed of 54.55 miles per hour. Miss Westchester threw a propeller and was forced out for good leaving the battle to Miss California and Spitfire V.

The fourth heat was the sensation of the entire regatta. Sparrow came back into the race, but was never in the running. Miss California was off to a fine start and turned the first marker with a fifty-yard lead. Snoddy's skillful skippering of Spitfire V, they battled bow and bow down the straightaway. With her motor turning over 6500 revolutions a minute, Spitfire V was hard to hold on the bounded around like a bucking broncho with her entire hull out of the water half the time.

On the second lap, Snoddy threw caution to the wind and cut the markers with inches to spare at a sixty-mile an hour clip. He passed Miss California on the straightaway and never let up the pace until he crossed the line with a new record of 55.42 miles per hour. Miss California was barely three lengths behind, her speed being 54.83 miles per hour.

Miss California missed the big opportunity in the fifth heat and no fifth heat was held when both

ball players for some good ones, but I don't think there is anything to that because I have been around lots of these meetings and I have noticed that the proprietors usually make the trades by long-distance phone before or after the meetings.

ROGER COMPLAINS

Mr. Roger Peckinpaugh, late of the Chicago White Sox, now manager of the Cleveland Indians, attended his first meeting today and complains that the lobby of the Belmont was the hardest indeed he ever played on. "No wonder major league managers don't last," Mr. Peckinpaugh said. "One season of this is enough to ruin a man's legs." He has had legs to start with, too.

I heard about a trade this afternoon. It seems that one season when George Stallings was managing the Boston Braves he looked down the bench for a pinch-hitter and called to Hank Gowdy:

"Well, feather-brain, get up there and give us a hit."

The seven ball players jumped up and grabbed bats.

That seems to be another story. The story about the trade is that Phil Ball, the owner of the St. Louis club, is going to trade George Staller to either the White Sox or the Indians. The White Sox will have to give Ball a pitcher for Staller. I don't know whether they will make the trade or not, it's just a story. There was another story about

TROJAN CAGERS START TRAINING

(Continued from First Page)

up about a week ago, but injuries to some men and the failure of others to report has caused a switch in squad. Injuries to Dick Schulz, Charley Bone and Tommy Lewis started the squad in a lull, and it was further hit when Jesse Hibbs and Morley Drury announced they did not intend to go out for the hoop squad this season.

Additional dents were occasioned when Tony Steponovitch, Lloyd Thomas and Lowry McCallin did not report for practice at the close of football season, as had been expected. They will, however, appear for practice at the conclusion of Christmas vacation. Bone and Lewis have returned to the squad, having recovered from their ailments. Schulz is lost for the season. He threw a knee and intends to give it a complete rest. He may report for baseball when the season starts, if he is well enough. Schulz is a pitcher.

WESTERN UNION CAGERS WIN

The strong Western Union basketball team added another win to their credit last night when they traveled to Universal City and took the Movie team into camp, 44 to 37. The game was featured by the guard work of Myers and the shooting of Rogers for the winners.

Bill Blewett Alters Line-up

Bill Blewett, coach of the Los Angeles fire department football team, isn't fretting a bit because the answer to his problem is a switch in squad. Injuries to Dick Schulz, Charley Bone and Tommy Lewis started the squad in a lull, and it was further hit when Jesse Hibbs and Morley Drury announced they did not intend to go out for the hoop squad this season.

RALPH DE PALMA DUE TO ARRIVE HERE TOMORROW

Ralph De Palma, veteran monarch of the speedways, has given up the idea of flying to Los Angeles for Sunday's program at Ascot Speedway, and is now en route here via automobile. According to a wire received by Harlan Fongler, managing director of the Alhambra-avenue oval yesterday, De Palma's delay in arrival is holding up the plans of hundreds of his friends in the Italian colony and sport notables for a huge reception and they are besieging the Ascot management for definite information. It is expected that the famous Italian will arrive here tomorrow when the arrangements for the welcome will be completed.

Entries for the Sunday race program yesterday, gave an atmosphere of match racing to the Ascot track. The signed entry blank of George Souder, Dory Atha and Louis Schneider, all of whom are intense racing rivals of the veteran De Palma and all of whom are anxious to mark up new track and world records over the Ascot course, which is labeled by all of them as the fastest track in the world.

Other cars will be at least four others in the fifty-lap event scheduled as the finale to make it a battle royal all the way and in spite of the imposing array of the four stars, Fongler asserts the quartet will get all the chasing they want before any of them cross the finish line.

De Palma in his first appearance in Los Angeles in a number of years under the banner of the A.A.A. contest board, is extremely anxious to make his 1927 debut the most impressive of any of his races in Los Angeles. The famous Italian held the Ascot track record of 59.2 until the last race at Ascot, when the youthful George Souder, winner of the 1927 Indianapolis classic, copied the mark by clipping nearly a full second off De Palma's time. One of the biggest factors in getting the great Italian's consent to race in Los Angeles again was the fact that his old record had fallen and it was an opportunity to prove to his thousands of friends and countrymen here that he has lost none of his driving skill or cunning.

Six events are carded for Sunday with every indication that the most spectacular driving ever seen on any track will be dished up for the 30,000 or more speed fans who will be out to watch the knights of the roar-tour in action.

Practice starts this afternoon under the supervision of Fred G. Wagner, veteran A.A.A. starter. During the racing Sunday the entire plant will be under the authority of Peter De Paolo, 1926-27 national open-wheel champion, as referee.

PICK BIG GAME PLAYERS

(Continued from First Page)

"Howdy" ought to turn in a great game against the southerners. Few backs in the country have his speed. Elliott is the best passer on the Trojan team and the best punter, next to Jess Hibbs. Fames are certain to play a big part in the western team's offensive and Elliott will be particularly valuable in this style of attack. Oak Fendleton should afford Elliott a brilliant understudy.

The Whittier star can do everything that Elliott can and is probably a better kicker and fader in the open field than Howard. If the western line can get Fendleton into the open the southerners will have a tough time stopping him.

TROUT GROW FAST AT RAINBOW POND

Leigh G. Garney, manager of the Rainbow Angling Club announced today that trout measuring from four inches in length to eighteen inches long were taken from one of the large rearing ponds on the club grounds. The fish were all the same age, one and one-half years, and were from the same hatching of eggs. This, says Garney, settles the age-old question of how fast does a trout grow. The answer can always be the same: "Nobody knows."

Distance Swim on Second Week

The distance swimming contest that is being featured by the health education department of California Young Women's Christian Association is now on its second week. The State-wide swim is unique in that its rules conform to health standards that this department of the association recommends. Emphasis is placed on regularity and temperance of distance swimming by limiting the contestants to one hour's effort daily.

Each Y.W.C.A. of the various towns is urging its swimmers to pile up the most distance during the month of December in this friendly competition. At the local Los Angeles plant, 3000 lengths of the ninety-foot pool, or over thirty-four miles, were covered in the first week.

SAN DIEGO BOY TAKES FROSH RUN

Bill Varney Adjudged Winner in Harriers' Event Saturday

CLAREMONT, Dec. 12. (Exclusive) Bill Varney of San Diego State College, was the winner of the freshman cross-country run at Ganessa Park, Pomona, last Saturday. That is the official verdict of Southern California Conference moguls, who got together in a big confab and threshed it out after the race. The five men to be awarded medals for placing are Varney, the winner, Fiskin, U.C.L.A., second; Thurman, U.C.L.A., third; Howell, Redlands, fourth, and Pax, Pomona, fifth.

Due to the rain that was falling heavily, the checkers at the finish line Saturday were unable to get all the numbers as the freshmen finished their race. The numbers on the bosoms of the runners were either crumpled up into an unrecognizable mass or had dropped off altogether. Consequently judges, officials and the whole works had to get together after the race and figure out the winner, and those to place. It was impossible to tell which team won, but Varney was declared the official individual winner.

Varney's time for the three miles was 16m. 42s. which is remarkably good for the condition of the weather and the track. His victory made it a clean sweep of the day for San Diego, Linwood Brown breaking the tape in the varsity run.

SCORED IN TANGLE

Admits Clark an
"Insider" in Case

Fights Grand Jury
Disclosure Plan

Warnings Against
Tampering Told

CHICAGO, Dec. 12. (Exclu-
sive)—Contestations that
Clark, Chicago capitalist and
leader of the United-Clark con-
spiracy, was an "insider" in
the Teapot Dome jury-tam-
pering case were corroborated today
by a disclosure plan of the grand
jury. The disclosure plan, which
was an "insider" in the case, was
disclosed by the grand jury. The
disclosure plan, which was an "in-
sider" in the case, was disclosed by
the grand jury. The disclosure plan,
which was an "insider" in the case,
was disclosed by the grand jury.

TRAINWRECK CAUSED BY LOOSE RAIL

Investigators Discover
Bolts Taken From Track
Where Wreck Occurred

PITTSBURGH, Dec. 12. (Exclu-
sive)—The Baltimore and Ohio Railroad
here announced today that an in-
vestigation disclosed that removal of
bolts from the ends of two rails
caused the wreck of train No. 19, the
Delmont Limited, en route from Wash-
ington, at Guffey Station, thirty
miles southeast of here, last night,
killing one trainman and injuring
two others.

Hot Reception-- \$100,000 Fire

SAN FRANCISCO, Dec. 12. (Exclu-
sive)—Twenty minutes after J. W.
Bowercox, president of the Sealy Mat-
tress Works, with plants in this city,
Los Angeles and Seattle, arrived from
Los Angeles tonight, the plant was
afire with a blaze that caused \$100,-
000 damage.

Takes Lot of Argument to Get Arrested

SAN FRANCISCO, Dec. 12. (Exclu-
sive)—Reversing the usual order of
things Daniel Lehman of Los Angeles
had to resort to all his persuasive
powers to get arrested here today.
His persuasion was so pronounced
that when he was accommodated.
Finally, an additional charge of dis-
turbance of the peace was lodged against
him.

Envoy to Mexico Given Promotion

WASHINGTON, Dec. 12. (Exclu-
sive)—Arthur Bliss Lane of New York City,
until recently first secretary at the
Embassy in Mexico City, was named
today as chief of the Mexican divi-
sion of the State Department.

LUNCHEON DATE LONDON'S IDEA

Briton Demands His Sandwich
Punch Time Clock Now
for Safety's Sake

LONDON, Dec. 12. (Exclu-
sive)—The American expression, "time is
money" has made such an im-
pression here that it now ap-
plies to food.

Sandwiches not only are
dated, but timed. Competi-
tion in the sandwich game has
become so keen in the theater
and night-life sector and
around town generally that a
sandwich now must have its
birth certificate stamped on its
little paper jacket in letters
and figures which no one re-
quires spectacles to read.

The timing of the sandwiches
begins at 5 a.m. and runs up
to 7 p.m. After that hour
consumers must take a chance
on something which is not
guaranteed as "new laid."

One of the bills would reduce the
statute of limitations in conspiracy
cases from six years to three, and a
second would authorize the President
to pardon an individual in face of
the individual's refusal to accept ex-
ecutive clemency.

LEGION POLL UP TO EXECUTIVES

Spafford Says Order Must
Come from Committee

Sentiment Indicates Idea
Will be Dropped

Commander Continues to
Defend Proposal

INDIANAPOLIS, Dec. 12. (Exclu-
sive)—The Temperance discussion which
followed Commander Edward E. Spaf-
ford's suggestion that the American
Legion membership be polled on the
prohibition question, apparently was
effectually killed here today, when
the national commander said no such
poll will be taken unless ordered by
the national executive committee of
the Legion.

Commander Spafford will not bring
the matter before the executive
committee when it meets in Jan-
uary, he told State commanders and
adjutants of the Legion, at the open-
ing session of their annual three-day
conference at national headquarters.
Legion officials here said several
telegram received from members of
the committee had indicated senti-
ment against the suggestion.

Commander Continues to
Defend Proposal

INDIANAPOLIS, Dec. 12. (Exclu-
sive)—The Temperance discussion which
followed Commander Edward E. Spaf-
ford's suggestion that the American
Legion membership be polled on the
prohibition question, apparently was
effectually killed here today, when
the national commander said no such
poll will be taken unless ordered by
the national executive committee of
the Legion.

Commander Spafford will not bring
the matter before the executive
committee when it meets in Jan-
uary, he told State commanders and
adjutants of the Legion, at the open-
ing session of their annual three-day
conference at national headquarters.
Legion officials here said several
telegram received from members of
the committee had indicated senti-
ment against the suggestion.

TRAINWRECK CAUSED BY LOOSE RAIL

Investigators Discover
Bolts Taken From Track
Where Wreck Occurred

PITTSBURGH, Dec. 12. (Exclu-
sive)—The Baltimore and Ohio Railroad
here announced today that an in-
vestigation disclosed that removal of
bolts from the ends of two rails
caused the wreck of train No. 19, the
Delmont Limited, en route from Wash-
ington, at Guffey Station, thirty
miles southeast of here, last night,
killing one trainman and injuring
two others.

Hot Reception-- \$100,000 Fire

SAN FRANCISCO, Dec. 12. (Exclu-
sive)—Twenty minutes after J. W.
Bowercox, president of the Sealy Mat-
tress Works, with plants in this city,
Los Angeles and Seattle, arrived from
Los Angeles tonight, the plant was
afire with a blaze that caused \$100,-
000 damage.

Takes Lot of Argument to Get Arrested

SAN FRANCISCO, Dec. 12. (Exclu-
sive)—Reversing the usual order of
things Daniel Lehman of Los Angeles
had to resort to all his persuasive
powers to get arrested here today.
His persuasion was so pronounced
that when he was accommodated.
Finally, an additional charge of dis-
turbance of the peace was lodged against
him.

Envoy to Mexico Given Promotion

WASHINGTON, Dec. 12. (Exclu-
sive)—Arthur Bliss Lane of New York City,
until recently first secretary at the
Embassy in Mexico City, was named
today as chief of the Mexican divi-
sion of the State Department.

LEAGUE SESSION
CLOSES HAPPILYFour Major Controversies on
Way to SettlementPolish-Lithuanian Parley to
Be Chief ResultMarch Session of Council in
Rome Possible

GENEVA, Dec. 12. (AP)—With four international problems, including the Polish-Lithuanian controversy, on the way to settlement as a result of its deliberations, the forty-eighth session of the Council of the League of Nations adjourned this morning to meet in March.

To the very end, it is felt in League circles, a special concession by the governments in the interest of obtaining accords on the various problems dominated the deliberations of the Council.

Officials said that no arrangements to convene the March session at Rome had been made, although Rome has been suggested in some quarters as offering a way of bringing about a settlement of Foreign Minister Briand of France and Premier Mussolini without making it necessary for the French Foreign Minister to make a special journey to Rome for the purpose of seeking an opportunity to adjust Franco-Italian relations.

GRATIFYING RESULT

The French representatives here seem desirous of having the March session in Rome and it is possible that negotiations will take place among the Council members concerning this within the next month or two.

The Polish-Lithuanian dispute was liquidated by an agreement of the two countries to enter into direct negotiations with each other for the settlement of their differences and it is likely that a conference soon will be held at Riga, Latvia.

The ceaseless activities of two Latin-American members of the Council, Senor Urrutia of Colombia and Senor Vilegas of Chile, contributed to compromise settlement of two other vexing problems. These were the request of Greece to be freed from the obligation to make full payment for the battle cruiser Salamis contracted for in a German ship yard before the war and the request of the free city of Danzig to have a Polish munitions depot there either removed altogether or placed under partial control of Danzig.

READY TO AGREE

The battle cruiser question was referred to a mixed arbitral body for solution with the understanding that an advisory opinion may be asked of the World Court of Justice as to the question whether Germany is prevented from exporting war material contracted for before the war. Greece maintains that Germany is so prevented and has refused to take possession of the battle cruiser. Today, however, Greece agreed to abide by the decision of the arbitrators.

The Polish depot problem will be regulated by a local conference at Danzig, both Poland and the free city informing the Council that they will accept the result of the conference.

Still another question which was liquidated amicably is the indemnification of Bulgarians who left Greece for Bulgaria, the property affected totaling about \$4,000,000. Both Greece and Bulgaria have agreed to accept the rulings of a mixed commission.

Chicago Police Announce Heavy Crime Reduction

CHICAGO, Dec. 12. (AP)—A 55 per cent cut in crime last month as compared with November a year ago was Chief of Police Hughes' answer today to critics of Chicago's crime situation.

He cited recovery of \$5,807,514 of stolen property last month and the arrest of 7810 persons.

"That record," he said, "is from only one organization of department—the Detective Bureau. It would be even more noteworthy if statistics of the entire department were employed."

In citing figures the Chief said they were ignored "deliberately or otherwise" by "paid reformers, publicity seekers or well intentioned but inaccurate individuals."

San Pablo Bay Toll Span Asked

MARTINEZ, Dec. 12. (AP)—T. A. Tomasi, Marin county capitalist, applied to the Contra Costa Board of Supervisors today for permission to construct a toll bridge more than five miles in length, across San Pablo Bay, connecting Contra Costa and Marin counties. The terminals of the proposed structure would be at San Pedro Hill, Marin county, and San Pablo station, in Contra Costa county.

Description of the bridge, contained in the application, developed the fact that there would be railroad tracks in the center and an automobile road on each side. The bridge would include 2000 feet of steel and concrete trestle, starting from the Marin side, connecting with an 8000-foot steel span of the cantilever and suspension type, with a minimum clearance at high tide of 180 feet. Then would follow 9000 feet of steel and concrete trestle and a 6800-foot highway on a fill, on the Contra Costa side.

French Named to State Post

SACRAMENTO, Dec. 12. (AP)—Gov. Young today announced that he will appoint Will J. French of San Mateo as a member of the State Industrial Accident Commission when the term of John W. Carrigan of Los Angeles expires January 1.

The Governor said French will be designated as chairman of the commission and will be made director of the Department of Labor and Industrial Relations, a post now held by John W. McIlvray as chairman of the accident commission.

French served on the commission from 1911 until March, 1924, part of the time as the chairman. In his own position he will receive \$8000 a year by virtue of his being the Director of Industrial Relations and a member of the Governor's Cabinet.

FRUIT PEST
QUARANTINE
WILL STANDSpain So Informed After
Report on Investigation by
Federal Inspector

WASHINGTON, Dec. 12. (AP)—The Spanish government has been informed by the State Department that the Mediterranean fruit-fly quarantine established by the United States is justified under the examination made in Spain at the request of the Spanish Embassy by Max Kisluk, Jr., an inspector of the Federal Horticultural Board.

The effect of the communication is to deny Spanish grapes and oranges entry into the American market because of the existence of the pest. So far as tomatoes from Spain or the Canary Islands are concerned, however, restrictions will be modified to permit their entry after inspection at the point of entry.

The fruit-fly quarantine has been repeatedly protested by Spain and it was imposition of this restriction that brought about termination of commercial treaty relations between the two countries several years ago. Since, commercial relations have continued on the basis of temporary working agreements, negotiation of a new treaty having been held up in Spain while the embassy here pressed for a modification of the fruit-fly quarantine.

Dr. Kisluk was sent to make the investigation in the fruit-growing areas of Spain a year ago. In disclosing his report to the State Department this month the Department of Agriculture says: "The department believes that the co-operation of Spanish officials in the survey has made it clear to us officials that the restriction enforced by this department in regard to grapes has a definite basis in pest risk."

The communication adds that the Agriculture Department still judges it "unwise" to permit grapes and oranges from Spain to enter the country.

MEXICO KILLS
100 REVOLTERSFeds Say Clean-up of
Malcontents Near EndCaptured Rebel Chief and
Father ExecutedAmmunition and Bombs
Taken in Battle

MEXICO CITY, Dec. 12. (AP)—More than 100 rebels have been killed in a combined Federal drive against them during the past week in the States of Jalisco, Aguascalientes and Michoacan, special dispatches from Guadalajara state. The military authorities expect to be able to announce in a short time that the district is pacified.

Twenty-three rebels were killed when a band of what the government terms fanatics commanded by Felix Barajas, Dionisiano Hernandez and Damaso Felix was dispersed a week ago at Cuquila, State of Jalisco. In the combat, which lasted eight hours, Damaso Felix and his father were captured with several rebels. All were executed.

ONE HUNDRED KILLED

About 100 rebels were killed in a battle between Federal forces commanded by Gen. Avila Camacho and 600 rebels led by the chieftain Geronimo last Thursday at Rancho Nuevo. The Catholic priest, Jose Cabral, is identified as one of those killed.

The Federal forces captured large quantities of ammunition, dynamite bombs, material intended to wreck railroads and articles for use in religious services. Ninety-six horses also were seized.

The War Department has been notified by Gen. Fox and Figueroa, who are co-operating in the campaign, that their forces dispersed rebels in various clashes last week.

Gen. Juan Dominguez reported to the department that troops under his command are advancing on Cuicman, State of Michoacan. The rebels

ROLE ON FARM
TALLEY'S AIMOpera Star Tells of Plans
to Buy and Manage
Place in Ohio

HARTFORD (Ct.) Dec. 12. (AP)

Just as soon as Marion Talley, young Metropolitan opera star, can find a little farm in Ohio that pleases her, she intends to buy it and then some day, which she hopes will not be far distant, she will leave the footlights to play the role of farm-ette.

She thinks this is the most interesting of all roles. That, in sum and substance, is the gist of a statement she made just before appearing in a concert here yesterday. Miss Talley dislikes city life. "It isn't life at all," she said. "It is unnatural and unreal."

She is said to have concentrated there and strongly fortified the town.

HELD FOR RANSOM

Special dispatches from Guadalajara say a heavy ransom is being demanded for the release of Juan Oreandain, who flew as a guide with army aviators attempting to locate bandits and rebels in Jalisco.

The outlaw leader, Nercido Lemus, whose men carried off Oreandain, decided to hold the youth for ransom rather than kill him.

Dispatches from Pueblo say that Carlos Dion De Urdanivia, attorney, and Joaquin Cardenas, Catholic priest, have been arrested by judicial police sent from Mexico City to investigate whether they are connected with activities of the League for the Defense of Religious Liberty.

CROSSING WORK AWARDED

SACRAMENTO, Dec. 12. (AP)—A contract for two underground crossings under the Southern Pacific tracks on the Victory Highway near Applegate, Placer county, today was awarded by the State Department of Public Works to the W. A. Betsch Company of San Francisco. The successful bidder's offer is \$45,500.15, against an engineer's estimate of \$55,982.28.

MOTOR TRAFFIC
LAW DRAFTEDCommittee of Experts in
Agreement on FormMeasure to be Distributed by
National ChamberIts Adoption Would Unify
Travel Regulations

WASHINGTON, Dec. 12. (Exclusive)—The meeting in Washington of experts in motor traffic laws to obtain a uniform law for adoption by all the cities of the country has agreed on the general form of the measure and several hundred thousand copies will be distributed by the United States Chamber of Commerce in the hope that such a measure may be used in all congested centers to prevent further fatal accidents and traffic interference and permit the widest interchange of interstate motor travel without the present confusion.

The committee has adopted the essentials of such a measure as has been demanded by Secretary Hoover of the Department of Commerce, and all that now remains is for the cities of the country to adopt the plan and eliminate the unnecessary confusion caused by requiring different rules and regulations for automobile traffic.

One of the principal factors in this work is J. Allen Davis of Los Angeles, associate counsel for the Automobile Club of Southern California. He will remain in Washington for several days to clear up the matter and get the form of the bill in shape so that it can be brought to the attention of the principal cities by the officers and directors of the United States Chamber of Commerce.

Mr. Davis, who was one of the men entrusted with much of the work in drafting this measure for presentation to the joint meeting here of a general national committee selected by Secretary Hoover, hopes to have the bill ready for the attention of the present Congress and have it adopted as the traffic law of District of Columbia, as an example of what all other cities of the United States should do in order that motorists will find no real difficulties in driving from one State to another, for under a model traffic law all the important regulations will be the same.

Victims of CONSTIPATION
Regain Health by this
Pleasant Drink

Wonderful Blend of Mineral
Salines Promptly Frees the
System of Internal Poisons,
the Cause of Many Ills.

SEE that you are not among the millions of unfortunate men and women who are burdened with the scourge of constipation. To suffer from the host of ills that follow in its wake is now needless.

Instead of seeking relief in pills and drug-laxatives, that tend to injure health and give only temporary unnatural relief, drink your way to good health, safely, easily and naturally.

For a clear head, sparkling eyes and rosy cheeks—follow the advice of physicians. Since your grandfather's time they have prescribed Tarrant's Seltzer Aperient.

This famous blend of mineral salines promptly and ever so gently relieves dread constipation. Quickly it clears the head, tones up sluggish liver and sweeps all dangerous poisons from the system.

Good Health in a Wonderful Drink

Try Tarrant's. Mix a teaspoonful in a glass of water. See how it bubbles and sparkles. Never have you tasted a better drink—as good as the finest mineral water. And remember, Tarrant's keeps you free from the grip of constipation and so protects precious health. Take it first thing in the morning or the last thing at night. Get a bottle from your druggist—today!... 50c and \$1.00.

Increase in Unfilled Orders Stimulated

Hupp Motors Features Advance to New High

NEW YORK, Dec. 12. (Exclusively)—The stock market today was characterized by a new advance in the price of common stock.

On the New York stock market, the advance was particularly marked in the case of the common stock of the Hupp Motor Car Co., which advanced to a new high of \$24.00.

The advance in the price of common stock was the result of a number of factors, including the increase in the price of raw materials and the increase in the price of labor.

The advance in the price of common stock was also the result of the fact that the market was flooded with new issues of common stock.

The advance in the price of common stock was also the result of the fact that the market was flooded with new issues of common stock.

LOS ANGELES EXCHANGE

Bancitally and Bank of Italy in Heavy Liquidation; Richfield Advances to New Peak

Trading on the Los Angeles Stock Exchange yesterday was the heaviest in history, the aggregate total of sales reaching the record high figure of \$2,582,785. The heavy volume was due largely to the profit-taking in Giannini issues and the heavy accumulation in Richfield oil shares.

Bancitally sold off 5 points to a low of 135 on a turnover of 7706 shares, and closed at 43-4 points net lower at 135-4. Bank of Italy lost 4 points under pressure of selling, receding to 242, where it closed. Bank of Italy rights lost 5-8 of a point to 10, with 12,083 rights traded.

Los Angeles First National added 1-4 to 108-3-4, while Merchants' National and Union Bank and Trust Company held firm at 815 and 245, respectively. United Bank and Trust Company of San Francisco receded 4 1/2 points in the unrelated dividend to 30-1/2 and closed at 21-1/2.

Richfield was the feature of the advance and led activity on the board in point of shares traded. With a 100 share turnover, it advanced 1-4 to 251-4 and the common was firm at 41-1/2.

Electrical Products common added a point to 92, while the preferred held steady at 92. The mining list was unchanged with activity light. Total volume of shares traded was 71,587 and the par value of bond transactions amounted to \$140,000.

Los Angeles Gas and Electric preferred added 1-4 to 103-1/2, as did Edison 7 per cent preferred to 28-1/2. Edison 9 per cent receded 1-4 to 251-4 and the common was firm at 41-1/2.

Electrical Products common added a point to 92, while the preferred held steady at 92. The mining list was unchanged with activity light. Total volume of shares traded was 71,587 and the par value of bond transactions amounted to \$140,000.

MARKET AVERAGES

NEW YORK, Dec. 12. (Exclusively)—Today's stock market, as compiled by the New York Times, was characterized by a new advance in the price of common stock.

On the New York stock market, the advance was particularly marked in the case of the common stock of the Hupp Motor Car Co., which advanced to a new high of \$24.00.

The advance in the price of common stock was the result of a number of factors, including the increase in the price of raw materials and the increase in the price of labor.

The advance in the price of common stock was also the result of the fact that the market was flooded with new issues of common stock.

The advance in the price of common stock was also the result of the fact that the market was flooded with new issues of common stock.

BLAIR & CO. INCORPORATED

The Shrine of Petroleum

HYDRO carbons . . oil and gas . . had been known for twenty-five centuries before the first commercial oil well in the world was completed near Titusville, Pennsylvania, by Colonel E. L. Drake on the 28th of August in 1859. A few years later, in 1862, a well was dug by hand in Russia. In those days the oil business consisted of the house-to-house sale of kerosene for lamps.

From these small beginnings the petroleum industry has grown until it ranks today third among America's industries. From the day of the isolated well in the hills of Pennsylvania, producing six or eight barrels of oil a day, the industry has expanded to an investment estimated between ten and eleven thousand millions of dollars. Vast producing fields, great fleets of steel tank ships and tank cars, thousands of miles of pipe lines and huge refineries represent the sound investment of great sums of money. American motor cars are consuming approximately 1,100,000,000 gallons of gasoline each month. Oil—no longer a speculation but a mammoth industry.

At the very forefront of banking

houses in the financing of the oil industry stands Blair and Company. The contacts of this organization include many of the important oil companies in America and in foreign countries.

The securities of the oil industry originated and distributed by Blair and Company represent the investment of hundreds of millions of dollars, backed by assets of many times that amount. Based upon long years of experience and broad contacts in practically every field of finance . . . governmental, municipal, railroad, public utility and industrial . . . Blair and Company has been able to guide the investor in this great and profitable industry.

NEW YORK CURB STOCKS

NEW YORK, Dec. 12. (P)—Prices on the curb market today followed an uneven course. While several of last week's strong issues were subjected to profit taking, pools ferreted out some new specialties and bid them up briskly.

Prominent among the shares under pressure were Bancitaly, Borden Company, Celanese and some of the publishing issues, the first named falling back more than 7 points simultaneously with indications that the stock would be withdrawn from the list. Glen Alden Coal continued to sag in reflection of the continued warm weather and Lehigh Valley Coal sales fell to a new low for the year before rallying for a net gain of about 3 points.

Some of the motors, including Durant and Reo were in demand but Ford of Canada had a net loss of 17 points after starting upward. Tumblers made up nearly 30 points of last week's steady decline but most of the other high-priced stocks were inactive.

Petroleum stocks failed to establish a definite trend, gains of a point or so in Illinois Pipe Line, Vacuum and Gulf Oil being offset by similar losses in Prairie Oil, Prairie Pipe Line and International Petroleum. Utilities likewise followed a mixed trend. Associated Gas and Electric was bid up about 2 points but National Public Service and Mid-West were under pressure.

Among the specialties which were advanced to new high territory were Evans Auto Leading A. and B. General Bronze, Mengel Company, National Baking preferred, Niles-Bement, Ford, United Biscuit "B" and new common and United States Trust.

The closing price is omitted when same as the previous day.

LOS ANGELES (Loce Ahng hayl ais)

MEMBER OF THE ASSOCIATED PRESS
 The Associated Press is a corporation organized for the purpose of obtaining news for its members by the use of its own correspondents and by the use of the news of other newspapers.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.

—Abraham Lincoln.

NEW SCHOOL IDEAS

Ireland is well to the front in its educational program. The large and thriving city of Belfast has a school hospital with a staff of physicians and surgeons and fifteen nurses. They have clinics every day, with operating rooms that are right up to date. There are also accommodations for patients that have to stay for several days. A kid that gets by with his tonsils has to be a wonder. The new schooling looks after his body as well as his mind.

THE HOME BUILDERS

Los Angeles building permits in November exceeded \$17,500,000 in amount—making perhaps the greatest November contribution to the upbuilding of the community that the city has known. We break a record of some kind every month and this must be one of them. It at least represents a huge amount of new construction. By this time it is possible that there are homes and apartments enough for us all. We are not to be caught with a serious shortage.

RULERS OF RUSSIA

The Soviet leaders in Russia say that the government should not be held responsible for the propaganda which emanates from the Moscow Internationale. It is mighty hard to find the line of demarcation. The Moscow bunch has been thought to be the whole works so far as Russia is concerned and it will be difficult for the administration to prove an alibi without showing a complete reversal of form. To disavow is not enough. The government must renege and repudiate.

WORLD COMMERCE

It begins to look as if Uncle Sam's choices, investment, restful, Department of Commerce, where Secretary Hoover stands guard. The cost of the branch is only a little over \$3,000,000 a year, but more than \$500,000,000 worth of new business for American merchants, manufacturers and producers has been directly traced to its activities. The ultimate benefit reaches down to the humblest citizen. This is the department of world contacts and they are all based upon good will and reciprocity.

DOUBLE-HEADERS

Nearly half the girls in one of the colleges, when recently quizzed on the subject, indicated a purpose to have both marriage and a career. Almost every girl expects to take a husband at some time in her life, but these maidens not only figure on a wedding ring, but a chance to express themselves in their own way. Somewhere or other the home is not looked upon as a career, although many forceful writers will insist that nothing nobler can be planned or provided. When a damsel has her elbows buried in dishwater she cannot imagine herself another Joan of Arc. But the girls who are determined to have both a husband and a career are giving hostages to fortune. They may hate the one and despise the other.

TECH FOR NOTORIETY

American actresses who visit Paris with a brass band, a cameraman and a press agent for the purpose of laying a wreath of panis on the grave of the Unknown Soldier will hereafter be invited to jump off the Eiffel Tower. The Parisians are becoming aware of the passion for publicity displayed by some of their visitors and they do not choose to have the nation's shrine converted into a merry-go-round. It was all right when a foreign ambassador or a ruler paid his respects in this manner. The French government could appreciate this gesture of sympathetic courtesy. Hereafter there can be no parading or flower-strewn under the Arch or at its approach save with the expressed authority of the city government and then only on notable occasions or on certain national holidays. The Unknown Soldier is not to be used as a bulletin board.

THE INVESTIGATORS

In connection with the proposed Congressional investigation of the light and power industry the statement is made by the head of one of the great corporations that more than sixteen times as much electrical current is used now as before the war, but the people are only paying five times as much in their total bill. Labor and materials used in the industry have more than doubled yet the cost of the energy has been vastly cheapened. Of what other industry or utility can as much be said? Likewise hundreds of thousands of employees and small investors have become stockholders in these companies and thus share substantially when any profit is made, while at the same time the people generally are getting their light and power at lowered rates. Will the politicians investigate this situation with the idea of learning how to run the country on as worthy a basis? If that is the idea the taxpayers will wish them well. But if it is a matter of harrumphing for political ends they are wasting time.

GENEVA AND VERSAILLES
 When the Treaty of Versailles was drafted in Paris the prosecuting attorneys were also the judges. That was a conference of the powers emerging victorious from the most desperate, the deadliest war of historical record. The victors made full use of their advantageous position to impose their will on the vanquished. No representative of the Central Powers was permitted to take part in the deliberations, to plead the cause of the fallen.

Passion was at flood tide. Germany and Austria had elected to settle an international dispute with the sword; and they were judged by the sword. One could not expect the victors to bury their animosity when they had not yet buried all their dead.

Volumes have been written and thousands of speeches have been delivered in justification or condemnation of the Versailles Treaty. It has not accomplished all the good that its proponents claimed for it but it has not brought about the collapse that its opponents professed to fear—perhaps hoped for.

When one considers the conditions of Europe and the world while the conference was in progress one can only marvel that the negotiators build so well. Bolshevism, a deadly mental malady, was raging with the virulence of the "black death." The victor states had to defend themselves, secure their frontiers and their peoples, not only against possible encroachments from their late enemies, but against the threatened collapse of all legally constituted authority. They were threatened by interior revolt. The League of Nations was the classic of sunlight that penetrated the lowering heavens.

The negotiators of the treaty did not offer it to the Central Powers, and the world, as a perfect document. It was an act of international legislation. Ample machinery was provided for future revision. The world was asked to accept it as a kind of trial balance, to be verified and corrected through its application.

As one looks back to the winter of 1918-19 one can honestly marvel that the leaders of the victorious powers kept their heads so well when all about them was smoke, blood and ashes; that in the midst of violence, looting and seething passions, inflamed hatred, they retained such a measure of their composure that their mental vision was able to penetrate the fog about them.

Germany was made debtor-in-chief by the treaty, but the terms to Germany have proved to be much less enormous than they appeared to the German people when their representatives protested that the terms they were forced to accept were impossible of fulfillment. The winter of 1927-28 finds the Germans enjoying a degree of prosperity that no one foresaw eight years ago. Industrial and economic conditions compare favorably in Germany with those in the victor states of Europe. A treaty under which the vanquished enjoy equal prosperity with the victors carries its own justification.

Yet German delegates at Geneva are calling for a revision of the Versailles Treaty, for a modification of some of its terms—but only such modification as will lighten the German load. To the present their petitions have received little support from the so-called neutral states, and still less from the states that drafted the treaty.

Before amendments can be considered, Germany must establish beyond a reasonable doubt that they are not only equitable but absolutely essential to the restoration and the preservation of the peace of Europe. German interests alone must not be considered; the problem is one of the greatest good for the greatest number. It is not now a question of how the treaty was negotiated, but how it works.

The Treaty of Versailles is the foundation of the structure of modern Europe. The essential is not how the workmen were selected or whence they secured the materials, but whether the foundation is enduring, whether it can carry the weight of the superstructure. If the necessity can be demonstrated, the foundation may be extended to support additional wings; but the structure must not be weakened or endangered by heedless tinkering with the main supports.

We must not forget that Geneva is but a part of the superstructure resting on the foundation of Versailles; and the part must not be permitted to become greater than the whole, to endanger it.

THE SOB BROTHER

Every little while some self-appointed censor of our penological program raises a howl against capital punishment. We have been pretty well fed up with the arguments of the sob sister who, no matter how cold-blooded the murder, makes tearful pleas that the murderer shall escape the gallows; but the sob brother has not been so much in evidence.

Now, however, this lachrymose gentleman is coming to the front and is asking that we deal gently with the culprit who publicly displays by some of his inhumanity, with a fellow-being as to deprive him of his life. We never hear of any member of the sob sorority or fraternity shedding any tears over the grave of the slayer's victim, but only over the slayer.

In a symposium on "The Crime Menace" in the December number of Current History several writers take the stand that capital punishment should be abolished, as it does not reduce crime. One of them, Mr. V. F. Calverton, editor and author, referring to this means of punishment, says that "no greater fallacy exists today than the punitive theory." This is rather a sweeping statement, as the logical result of the adoption of Mr. Calverton's idea would be to let the murderer go scot-free.

If hanging for murder were not advisable why did England, in her successive revisions of her penal code, cease to hang offenders for pocket-picking and other minor crimes, but let the law providing for capital punishment for murder stand on her statute books? Why did Italy and Russia, both of which countries abolished that punitive measure for a while, adopt it again? Soviet tinkering with this and other vital laws produced far other than good results, and the same may be said of Italy's experiment.

LEE SIDE O' LA

BY Lee Shippey

SPORT history is full of stories of champion pugilists who won fortunes in their heyday, squandered them and died in poverty. So if you are one of the many who have entirely lost track of Jess Willard you may be a little surprised to hear that now, twelve years after he became the idol of the whole white world by taking up the white man's burden and winning the world's championship from Jack Johnson, and eight years after he lost the title to Dempsey,

Jess is living quietly in the Verdugo Hills near Glendale, doing his bit to help John McGraw make them famous, is actively engaged in the real estate business in Hollywood, he is worth about \$1,000,000 and expects to leave still more than that to his five children.

In the old days what pugilist would have dreamed of the real estate business? Then it was the saloon business or nothing for most of them. But maybe Hollywood can make a real estate man of anybody.

Fighting Days Over

I found Jess on the job in his real estate office on Vine street, smoking an enormous cigar, a cigar which proclaimed that his fighting days are over. For though smoking never hurt anybody, as all of us smokers agree, none of us would like to bet on a champion we caught doing it.

Misses Striding Days

"No, I don't keep up my training any more," he said, a little wistfully. "I get so interested in business I forget it. And though I am in perfect health I miss the fine edge of the old training days. It's hard work, but a man never knows what it is to enjoy the full zest of life till he trains and trains hard for a championship fight. Then he gets into such shape that every breath that he couldn't look on as a privilege when he was a fighter, now he draws every bite he eats, tastes good to him."

Loves the Land

Though his wealth has come from landing on others he cares more for land than landing now. Two of his five children are boys, but he isn't raising his boys to be fighters. All were born while he was fighting his way to fame—between rounds, as it were—their ages ranging from 12 to 17 years, but he would rather have his sons turn out real estate men than professional pugilists. He was reared on a farm and learned to land haymakers from wielding scythe and pitchfork, and he still loves the land. He owns a big farm in the Middle West now, and is enthusiastic about the future of Hollywood. Some folks may dread that Hollywood is momentarily about to overbuild, but the Willard corner—or corners—won't throw up the sponge.

step this Duty

On the contrary, he says in the symposium referred to: "We must not allow our interest in criminals to go to the point of making effective prosecution of crime and its punishment subordinate to schemes for reform of criminals however admirable they may be."

There is no better scheme of reform, as is shown by the working out of the Baumes laws in New York, than making such an example of the criminal and his punishment as reasonably may be expected to act as a "crime-deterrent"; and it would take more than all the arguments of the sob brother or sister to prove that the execution of murderers is not such a deterrent.

NEW REPUBLICAN SLOGAN

New England, home of the President, has developed a strong liking for Secretary of Commerce Herbert Hoover, and particularly from Boston, scene of Calvin Coolidge's rise to eminence, come frequent echoes of praise for California's strongest national figure and outstanding Presidential candidate. Recently the Boston Transcript, political and literary arbiter of the Athens of America, found in Secretary Hoover's report on the nation's commerce the logical Republican slogan for 1928.

"On the eve of a Presidential campaign," says the Transcript, "it has remained for Secretary Hoover to supply his party with a new slogan... Mr. Hoover reaches the general conclusion that the high prosperity of the year did not represent merely an upward swing in the business cycle, but was the result of a general and permanent progress. From this declaration the slogan 'Make Prosperity Permanent' would seem to be the logical outcome, meaning, of course, that prosperity will be permanent if the policies of government that have contributed to it."

The Transcript notes that it is a far cry from the slogan of the 90's, "The Full Dinner Pail," to "Make Prosperity Permanent"—for the workmen of today, under the assured prosperity made possible by Republican administration of government, have no worriment about the contents of the dinner pail and if they carry their dinner at all, as a matter of convenience, probably eat it seated comfortably in a motor car parked near the scene of the day's labor.

"Make Prosperity Permanent" is indeed a powerful slogan. It correctly implies success, an economic success unprecedented in world history. Herbert Hoover's wide and keen vision has caught the tremendous panorama of Republican prosperity like the lens of a perfect camera and with the judgment of a great national director he plans to make the set for the

He is preparing to improve several of his corners on Vine street now.

Won't Bar Children

"And when I put up an apartment-house it won't bear any sign, 'No children or dogs,' he declared. 'I remember how hard it was for me, in the old days, to get a home where children were allowed; and whenever I saw dogs and children clasped together it made me mad. I've even seen apartments where they allowed dogs, but no children. I don't claim to be any philanthropist, like some folks do, but I ain't going to make things any harder for the folks who keep the world going by having children. They have troubles enough as it is."

Sure Knockout

Jess estimates that his holdings in Los Angeles county are worth about \$750,000. He has lived here fourteen years and began buying property as soon as he arrived. About a year ago his interests reached a point which decided him to organize his own realty company to handle them and some other properties.

"Los Angeles real estate is the safest thing I know," he said. "It's well, it's a knockout."

Let 'Em Slip

The woman who sat beside me on the car as I rode back downtown said the same thing in a different way. "Twelve years ago," she complained, "I had a chance to buy a corner lot out here for \$500. Now it is worth \$200,000. Oh, of course, I let it slip twelve years ago—nobody dreamed then that this part would develop so. Some people never do have any luck."

I Had to Smile

When I asked the time of a man in the Federal Building, and he said: "I see some of the folks due at 9 getting here so I guess it's about 10."

When the barber who cut my hair took me good look at me and then asked: "Well, how are things out in the country, since the rains?"

When I asked my street-car seatmate—I always talk to my seatmates except when they're women too unwise of their dignity to receive a civil question civilly—what he thought of Sol Lesser's new theater chain, and he replied cryptically that he couldn't look on as a theater chain as a Lesser evil.

When I read that bullfrogs from Mississippi are being turned loose in the desert near Phoenix. I'll bet they all croak out there.

A PARIS WEDDING

BY EVELYN McDOWELL
 I have just attended my first real French wedding. About a quarter before 12 on the great day, I presented myself at one of the pretentious old churches in the midst of the business district of Paris, and selected a seat on the center aisle where I could have a good view of the ceremony as the women were laying a strip of red carpet down the aisle from the altar to the large front door. No ushers were in evidence to show guests to their seats. There were a few worshippers in the church, most of them gathered in front of a chapel where stands a favorite Madonna.

Soon a number of automobiles discharged handsomely dressed people in front of the main portal. Those in the church craned their necks, twisted around in their chairs, and stood in the aisle to catch glimpses of the assembling bridal party. These gathered at the entrance and gradually formed in line.

The big pipe organ pealed forth in a march, the lights in all the chandeliers were turned on, and the procession began to move up the aisle toward the altar. At its head were two factotums of the church in knee breeches, silver lace and Napoleonic hats, with large staves held upright in their hands. After them came three flutes d'honneur (we would call them bridesmaids) in rose color, each on the arm of a young man in "smokings." The bride, walking with her father, was lovely in a beautiful gown of white crepe satin, with long court train hung from the shoulders and white tulle veil falling from a wreath around her dark bobbed head. Three tiny tots, a boy and two girls, bore her train. The groom, in correct attire, escorted his mother, gownned in black with much embroidery, arrived at the high altar, which was backed with white flowers and foliage, the party disposed themselves at right and left of the bride pair. All were seated in comfortable-looking red upholstered chairs during the reading of the sermon, an attendant carefully placing the bride's train over the back of her chair. Rings were knotted and exchanged, and the benediction was pronounced by the canon of a provincial church, a friend of the groom's family, who had come to Paris for the ceremony.

Then I was surprised to see the rose-colored bridesmaids pass down the aisle, each clasping shoulder-high the hand of her cavalier and holding in the other hand a rose-colored silk bag in which she took up a collection. Not a bad idea, to levy a tax on wedding guests, who can't very well escape and are ashamed to refuse to contribute! I learned later that the money thus gathered is always given to some charity which the bride designates.

NEW FOUND RANGE

A great mountain range, the existence of which was not previously known to geographers, has been discovered in the northeast corner of Asia, on the peninsula which lies between the Arctic Ocean and the Sea of Okhotsk. This chain of mountains, estimated to be some 600 miles long, is believed to be the last great range to be discovered on the globe.

BACK EAST

By James J. Montague
 When all the birds except the crow have winged their southward way. And just before the winter's snow has come to rest to stay—
 At night, and always very late
 Along the cloudy lanes
 Jack Frost comes down to decorate
 The cottage window panes.

And when you rise at breakfast time
 You're afraid sure to see
 That they are covered with a rime
 Of lacy filigree;
 With curious straight and curving lines
 And shadows in between,
 That from a distance look like pine
 In some far Arctic scene.

They sometimes look like slender spires,
 They sometimes look like smoke from fires
 That kindle in the breeze.
 But when you view them close at hand
 Lit by the sun's first beams—
 They look more like the Fairyland
 You often see in dreams.

Perhaps that's where the palpit dwells
 And sketches all day through
 Among the bright and sunny dells
 With brushes dipped in dew—
 And then when kindly summer wanes
 He speeds across the sea
 And draws these sketches on the panes
 For you and me to see.

(Copyright, 1927, by the Bell Syndicate, Inc.)

AN EXPERIMENT THAT FAILED

BY ALMA WHITAKER
 Every church wants financial support and they are often at their wits' end how to get it. Not all pastors have Aimee's special talent.

Not long ago a large church in a nearby town tried an experiment. Letters were sent out to all parishioners explaining debts and expenses and included this paragraph:

"On the last day of this month a church membership list will be posted on a large card in the vestibule of the church. After each name there will appear a plus sign if our records show that you have made a contribution to the support of local expense, another if you have given to missions or benevolences, a third if you have made a gift to debt reduction—or a minus sign if you have failed. Those who have three plus signs will make up a special honor roll, and their names will be read at the annual meeting."

This letter was sent to me by a parishioner of the church. I considered it "one of the cruellest, most high-handed, coercing, dumb" she had ever seen. I decided to see how it worked out. Could a church, teaching the creed of Jesus of Nazareth, enforce the same methods as a social club to secure financial support?

LETTERS TO THE EDITOR

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Motor Vehicle Bumpers

LOS ANGELES, Dec. 8.—(To the Editor of The Times:—) The present method of installing bumpers on motor vehicles at a great assortment of heights from the ground is a reflection upon human intelligence. The bumpers are usually hung on different means of machines at any point fore and aft to which they can most conveniently be attached. Thus, when two machines come together, the bumpers will bump each other. For example, let us observe a simple rear-end collision, a form of accident that happens a few thousand times every day. In many cases the bumper of the car at the rear rams the gasoline tank and spare tire carrier of the car ahead. The rear bumper of the car ahead comes back into the fenders, lamps, or radiator of the machine that did the bumping. The bumpers of the two vehicles overlap because they are at different heights from the ground. The bumpers are practically every purpose for which bumpers are intended.

For many years we have kept on smashing up motor-car property, and sending people to hospitals and morgues from this cause. We have done this year after year, when the observations to be drawn from the accidents should have shown that the remedy for such a condition would require about as much intelligence as God gave geese. Therefore, if motor vehicle and accident manufacturers are lacking such intelligence, we should endeavor to legislate it into them. The attention of the California State Motor Vehicle Department is invited to these obvious facts.

JOHN EDWIN HOAG.

Use for Ex-Prisoners

LOS ANGELES, Dec. 8.—(To the Editor of The Times:—) From a medical viewpoint, I think President Coolidge's decision, that he will not run for President in 1932 and that of Mr. Hughes that he will not run on account of his age, were both wise decisions. I believe the terrific strain that a President of the United States is subjected to now-a-days helped to cause the death of both President Harding and Wilson, prematurely, and I believe the strain was beginning to tell on President Coolidge, whose constitution was never too strong, and he has decided to do the right thing to himself and family. But due to the wonderful record he has made we should try to use his great knowledge and experience in an advisory capacity, and he should be well paid for his expert advice.

In conclusion, I would add that I hope in our selection of a man to run for President we will select one who has the three M's well balanced, that is the manual (or physical), the mental and the moral, for due to the unsettled condition of the world as a whole, it is going to take some one with plenty of extra reserve power to stand the pressure, along the three lines mentioned above.

DR. J. H. WOLFE.

A Naturopath

BALDWIN PARK, Dec. 8.—(To the Editor of The Times:—) Nature's remedy, plant trees, forests, orchards, etc., on each side of rivers and tributaries from headwaters to the sea. These forests will soon provide food for man and beast and lumber fuel. The forest will take in the moisture and hold it too. The cost of tree planting could be borne by the States and Federal government. Dams are a menace to transportation, on streams, not only that but are costly and in this day of hurry-up jobs, sand cement, they are not safe. So plant forests from New York to the Pacific Ocean. They will take care of the floods, rains, etc.

R. M. J. DODDS.

Not the Only Twister

LOS ANGELES, Dec. 10.—(To the Editor of The Times:—) Cheers for your ironic, humorous article about the benevolences of our chief spell-binder, the Mol of Spring Street. How his canting, our complaisant District Attorney, will construe your entertaining and informing—piece cannot be known. More power to you. Give us more news at least two of the emigrants in our fair city.

A. SAMMOND.

TO A CHRISTMAS CANDLE

[An old English custom is to put candles in the window on Christmas Eve to guide the Christ-child.]
 Ships, O little candle,
 Through the darkened pane;
 Shine on gleaming snowdrift,
 Down the winding lane.

Through the still and frosty night
 Wanders lone the Child;
 Guide his steps, O little flame,
 O'er the moorland wild.

Warm our hearth and warm our hearts;
 The door stands open wide.
 Enter here, O Holy Child,
 And in this house abide.

ENGLAND EXPORTS NIGHTINGALES

Four English nightingales are being sent from England to New Zealand, and are expected to arrive in their new home this month.

This is the first time that an attempt has been made to introduce the nightingale in the Southern Hemisphere, but salmon and trout have been successfully raised in New Zealand waters from eggs sent out from Britain. Deer have also done well.

Both Australia and New Zealand owe a great debt to their present annual and plant life to England. They aren't always grateful for what they have received, however. Farmers of Ontario are at present sending emigrants, the rabbit and the blackberry, both of which have done enormous damage.—London News.

PEN POINT

Even a cipher can make a double when you put it after Thanksgiving.

Supplies doesn't mean Alabama supplies. It means a lot of trouble when you put it after Thanksgiving.

Happy thought: A man who makes more than his wife is a covered with boots.

Peace is a good thing, it is more difficult to get than it is to lose.

A good cry is just the feminine equivalent of a yawn.

And yet, why live in a try's ladder when you can live in a try's ladder?

Double the King of Beets at times that he will be the best of a woman's eye.

Americanism: "What are you?" "I'm American." "What are you?" "I'm American." "What are you?" "I'm American."

There are two kinds of underwear: the kind you wear and the kind you don't wear.

Giving peace to a slow motion, it's a last thing to do.

Among the things Coolidge will write with out of office are common.

Of course a new dress but what should I do with it? I asked for an opinion of a new hat.

One trouble with the new hat is that it will hurt the neck and the neck will hurt the head.

Now they have a new hat with a diamond brooch. It doesn't matter if you get it or not.

What China does is her war is a reform in both sides when they give time to it.

Correct this sentence: "I am a man of many talents." "I am a man of many talents." "I am a man of many talents."

People who have a business are not at all work for.

Some men and women are born with a talent for a job, but some are born with a talent for a job.

Tell a girl she is a beauty. The first thing you hear is she is waiting you to do it.

Many women are busy with their children and take over the management.

A parking space is where you leave the car, the three, the four, the five, the six, the seven, the eight, the nine, the ten, the eleven, the twelve, the thirteen, the fourteen, the fifteen, the sixteen, the seventeen, the eighteen, the nineteen, the twenty, the twenty-one, the twenty-two, the twenty-three, the twenty-four, the twenty-five, the twenty-six, the twenty-seven, the twenty-eight, the twenty-nine, the thirty, the thirty-one, the thirty-two, the thirty-three, the thirty-four, the thirty-five, the thirty-six, the thirty-seven, the thirty-eight, the thirty-nine, the forty, the forty-one, the forty-two, the forty-three, the forty-four, the forty-five, the forty-six, the forty-seven, the forty-eight, the forty-nine, the fifty

PEN POINT

Even a sinner at a club makes you think you are a saint when you are the only one who is not.

Supply doesn't increase demand. Alabama applied no more amount of feathers to her dress after Thanksgiving.

New York would not let its appropriate hot-dog stand, but about a rustic affair of covered with bark?

Happy thought. The way to save money is to get more than you can make more than you can.

Peace is a period during which it is more difficult to start a fight than to stop one.

A good cry is just the feminine substitute for a bath and a shine.

And yet, very few of the country's leaders were faithful to their youth.

Doubtless the King of Hearts at times that he might well be the husband of a woman woman.

Americanism: Scouring who pretend to be what they aren't: coming your own way.

There are two kinds of underwear: the kind you are aware of and the kind that makes you of one team or another.

Giving peace to Nicaragua a slow business, but it is a lasting peace to those who are.

Among the things that Coulidge will whistle when out of office are expenses.

Of course a man shouldn't be but what should he be asked for an opinion of his new hat?

One trouble with this country is that a full sentence doesn't hurt the social standing of million dollars.

Now they have a nightingale with a luminous keyhole, it doesn't matter if Grady goes to get her specs occasionally.

Nobody knows just what Chicago's new gang war, but perhaps one side used a head.

What China seems to need is a referee in her war is a referee in her war is a referee in her war.

Correct this sentence: "I be just as eager to give you home," they said to their father, "if you were not rich."

People who know their own business well are not lost to the world.

Some men send flowers to the bereaved of friends as a tribute to themselves.

It's one thing to strike a man for a loan, but quite another matter to make a hit.

Tell a girl she is a bit of the first thing you know she will be wanting you to fly with her.

Many women are bosses in their homes until children arrive to take over the management.

A parking space is a place where you leave the car to be removed.

EDISON TO PRESIDE AT REALTY BANQUET

The H. Wood branch of the Los Angeles Realty Board has named Robert Edison, member of the local cinema colony, to serve as master of ceremonies at its banquet to be held at the new Roosevelt Hotel Thursday night. He will introduce the guests of the evening and supplement his introductions with brief comments on Hollywood's advance in film activity. Frank Greve, chairman of the entertainment committee, has arranged the program and the affair promises to be one of the outstanding events of the organization's history.

DAM CARDS ON TABLE AGAIN

Court to Decide if High or Low Proponents Win Play for San Gabriel Flood Control

A test suit for an injunction to prevent the county Board of Supervisors from building the high dam of 435 feet to impound the waters of San Gabriel Canyon in place of a 385-foot dam was begun before Superior Judge Montgomery yesterday afternoon. J. A. Winans and Edwin Baker, representing the Los Angeles city committee of the California Taxpayers' Association, are the plaintiffs.

The trial is expected to settle a battle between opponents of a low and a high dam which has been in progress for more than six months. A second suit, filed by John Linn and others, representing property owners in San Gabriel Valley who want the high dam, will be decided on the facts brought out in the injunction sought by opponents of the low dam. The County Supervisors, as members of the County Flood Control Commission, are defendants in both suits.

The fight is the outgrowth of a resolution of the County Commissioners, who submitted to the voters a plan for the construction of a 435-foot dam at a cost of \$28,000,000, which was carried at the election. An investigation by a group of engineers resulted in assertions that the dam would cost \$30,000,000 and plans for the lower dam then were devised.

Bidding on the contract, however, developed that the high dam could be built within the \$28,000,000 appropriation and the low dam for \$20,000,000. Property owners of San Gabriel Valley insisted on action for the high dam and took the case to the Supreme Court. In the meantime a majority of the Supervisors, comprising Commissioners Bailey, McClellan and Wright, voted for the high dam. Commissioners Dean and Graves holding for the lower structure.

Then advocates of such structure filed suit and testimony will begin this morning before Judge Montgomery.

WILSHIRE ESTATE AT LOW EBB

Widow of Subdivider Says \$1,000,000 Fortune Has to Less Than \$17,000

The estate of the late Gaylord Wilshire, pioneer developer of Los Angeles, shrank from nearly \$1,000,000 to between \$15,000 and \$17,000, Mrs. Mary McNeely Wilshire, his widow, revealed yesterday at proceedings before Judge Crall in Probate Court, at which she was appointed executor of his will, dated June 1, 1915.

Unfortunate investments, principally in mining ventures, account for the shrinkage, Mrs. Wilshire stated. One in particular, in which Wilshire invested in recent years, proved to be a heavy loser.

Wilshire died in New York September 8, last.

Children Fight Will of Father

A contest of the will of Frank A. Hicks, who died last October 25, was filed yesterday in behalf of his son, James Hicks of San Francisco, and his daughter, Mary Hicks Kissel of Oakland. The estate is estimated to be worth \$70,000, a large part of it consisting of stock in the Hicks Machinery Company.

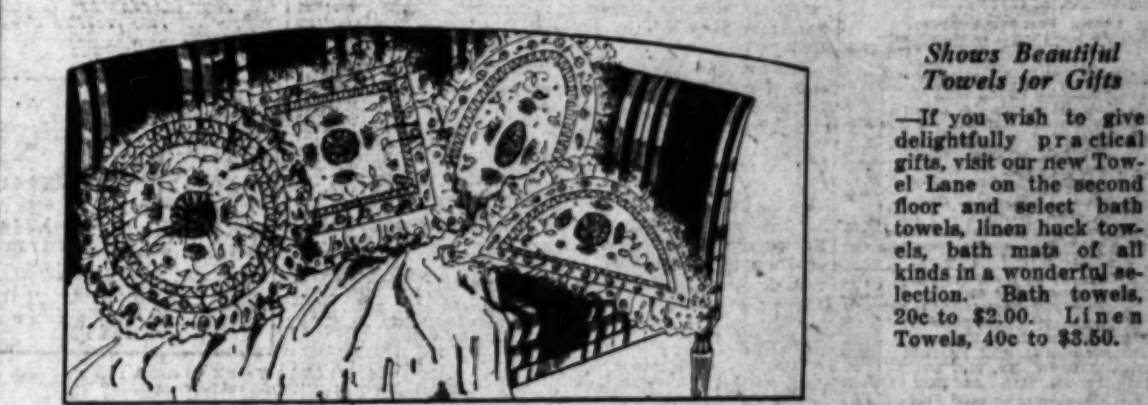

The will devised the home place and one-third of the residue to Edith Trevelyan Hicks, stepmother of the testator, one-third of the residue to Edward Hicks, a minor son, and one-sixth of the residue to each of the contestants. They charge the will was executed while the decedent was unduly influenced by their stepmother.

Seventh at Olive

Coulter's Dry Goods

FOUNDED IN 1875

Coulter's New "Towel Lane"

Boudoir Lace Pillows Unusually Priced, \$2.75

New designs of all-over lace fashioned over delicate pillows of gold, rose, blue, orchid and green. The lace covers have patterns of ships, rose, conventional designs or touches of petit-point. Night Gowns, \$8.95

Deep yokes of handsome imported lace make these night gowns of flat crepe and crepe satin very lovely to look upon.

Costume Slips, \$5.95

These slips are of excellent quality crepe de chine in lace and tailored models in colors of flesh, white, tan, beige and black.

For Her Gift

Such an array of gorgeous flowers in both the hot house varieties and the charming little field flowers... ranging from the more sophisticated to the charming demure blossoms. All kinds of orchids, roses, camellias, chrysanthemums, and the shy violets.

Violettes That Are Non-Crushable

As they are fashioned of a wood fibre from the Chinese rubber tree and one may wear them with such a feeling of satisfaction knowing they will look as fresh when you arrive at your destination as when you first pinned them on.

Priced 50c to \$3.50

All nicely boxed if you wish in a gift box. (Coulter's—First Floor)

Make your Own Christmas Frocks

Coulter's Wash Goods Section gives an idea of the cost of beautiful Rayon Voile frocks if one is clever enough to fashion one's own... and it is a simple matter with the help of a McCall pattern.

Rayon Voile, 26 in. 3 1/4 yds., \$1.25 yd.\$4.07 Plain Rayon Voile, 3/4 yd. trimming, \$1.75 yd.\$6.00 McCall Patterns, No. 502345c Rayon Sports Satin for slip, 1 1/2 yds. \$1.65 yd.\$2.48 Total\$7.65

Other lovely wash fabrics for the Christmas frocks are shown. (Coulter's—Second Floor)

WILL YOUR WIFE KNOW HOW TO INVEST YOUR INSURANCE MONEY?

REMEMBER, it will be paid to her in spot cash. That means she will find herself suddenly in possession of a much larger sum of money, quite probably, than she has ever before attempted to handle.

The odds are terribly against her disposing of it wisely. Few women have ever had experience with investments of magnitude. And the history of insurance shows that, in thousands of cases, they pay a tragic penalty for trying to solve a problem they never should have to face!

An Insurance Trust with This Bank

—gives your beneficiaries complete protection. It places the responsibility for investing your insurance money in the hands of experienced trust officers. And you can instruct them in minute detail exactly how it shall be apportioned and invested, so that immediate obligations, a regular family income, funds for your children's education—every need may be provided for and met in the right way.

Come in and let us show you some typical insurance trusts. The officers in our Trust Department will be glad to make suggestions for your own, without any obligation to you.

End Fat
 The way is now easy and pleasant

Anybody who suffers from excess weight should know that modern science has found the real cause. Supply your system with which turns food into fat energy rather than late fat. Modern research discovered that some two decades ago. It was embodied in Marmola's prescription. People have used them for 20 years millions of boxes of them. They turn millions of excess fat into energy. People are slender. All modern science adapted to them. They have adapted their systems with the modern science which prevent the formation of fat. Users of Marmola do not stop normal exercise or diet, though Marmola helps. They simply take four pills daily until weight comes down to normal. New vitality, new health comes at same time. The methods are not secret. Fat of Marmola contains the formula known for results. You know what are talking, and the scientific reason the benefits which come. Start Marmola now. You cannot stay fat. Backy health and gain your normal weight. Watch the scale for a month, and they will delight in the facts to others. What another day?

Marmola's prescription is sold by all druggists at 10¢ per box. It is a small box and can be taken at once from his pocket. Then tell the facts to others. What another day?

 The Pleasant Way to Lose

Christmas Carols Sung Centuries Ago
 by peasants of France, Russia and Germany in celebration of the Yuletide and recently resurrected from dusty archives, will resound tomorrow night at the University of California at Los Angeles. The public has been invited to join with the student body and the musical unit of the institution in this program of Christmas carols in u s a . which is intended as one of the traditional events of the season at the university. The singers will be under the direction of Squire Coop of the university music department. It is through its membership in the Carol Society of England and America that the university is able to present these ancient carols. It is through the research of Prof. Edward Bliss Reed of Yale that they have been revived, translated and arranged. The undertaking is made possible by the organization of the carol society, members of which are scattered throughout the world. While the assembly will be invited to sing some of the carols, others will be by the university glee club and the choral club. "Carols of the Russian Children," from "White Russia," an ancient nativity song, will be one of the features. Several French and Central European songs of medieval Yuletide celebrations are included. Among the numbers in which the audience will join are "Hark, the Angels Sing," "It Came Upon a Midnight Clear" and "Joy to the World."

Rail Executive Speaks Today to Advertisers
 Elsie Lee, vice-president of the Pennsylvania Railroad Company, will be the principal speaker at the luncheon of the Los Angeles Advertising Club at the Biltmore today at 12 noon. Mr. Lee was born in Chicago and was graduated from the Massachusetts Institute of Technology. He entered the service of the Pennsylvania railroad as a trainman in 1892, became assistant supervisor in 1899, supervisor in 1901, assistant engineer in 1905, principal assistant engineer in 1907, general manager east of Pittsburgh in 1911 and was appointed vice-president in 1926. John F. Keogh, vice-president of the title Guaranty and Trust Company, will be chairman. The five-minute talk will be given by Harry West.

NEW DOG PLACARD HOWL
 Again the Owensmouth Chamber of Commerce has written the City Council, beseeching relief from the plague of stray dogs. And again the City Council referred the communication to the Health and Sanitation Committee.

GREWSOME FIND MADE BY YOUTHS
 Pile of Human Bones Spells Tale of Disaster

Victims of Wreck or Piracy, Theories Advanced
 Lads Unearth Hidden Cavern Hitherto Unknown

Traces of a century-old tragedy found in a secluded cave in the cliffs of Palos Verdes were ordered examined last night by Capt. William J. Bright, head of Sheriff Trager's homicide investigation detail, to determine, if possible, the significance of a pile of bones, believed to be human, unearthed by Ingewood school boys. Fragments of the bones were brought to Constable Amend of Ingewood by a group of boys who had located the cave while playing on the beach. The advanced state of disintegration indicates that the tragedy occurred many years ago, according to Deputy Sheriff Stensland, who is in charge of the investigation. The cave is one which never before has been explored, according to Stensland, for Sheriff's deputies in the past have examined all known caverns along the beach in course of investigation of various crimes. A theory advanced by the officers is that the bones probably are those of a group of shipwrecked seamen, stranded during the early days of California, or perhaps the victims of a pirate captain who used violent means to quell a mutiny or to dispose of his prisoners.

Bullock's Basement Store

Specially purchased for that Annual Pre-Christmas Event Wednesday (not today)

Eight Hundred New Dresses at \$12.75

---Secured so advantageously that they can be featured at 'way less than regular---these Dresses are values so unusual that the eight hundred should prove all too few for even one day's selling---at \$12.75---Wednesday (not today.)

CONCERT MUSIC REIGNS TONIGHT

Tuesday Evening Given Over to Dance and Melody

Radio Proves Great Help in Balking Stock Fakers

Dr. McCoy's Lecture Hour on KJH Changed

By Dr. Ralph L. Power

Band music, concert orchestration and dance tunes will be much in evidence on all stations tonight. Although this type of entertainment al-

ways occupies much of the time on broadcast schedules, by far the majority of the stations present more on Tuesday nights than at other times.

On the 7 p.m. hour KFI will present the Los Angeles Firemen's Band while on the same hour KFOR will have the Best Jazz Band and KMIC a collegiate organization, Dolly's Melody Boys.

The 8 to 9 o'clock hour will bring to radio listeners the KJH program with the studio concert orchestra. KFWB will have Cronshaw's concert ensemble while KXK will broadcast the Biltmore concert orchestra and KMTR the Municipal House orchestra.

DANCE-TUNE HOUR

Then the 9 to 10 broadcast will bring the KFOR studio concert orchestra, the Glendale ballroom via KFWB, and over the orange network, both the Eversley concert and dance orchestra.

Between the hours of 10 p.m. and midnight dance tunes prevail generally.

RADIO BALKS BUNKO

Radio has been the means of enabling the American public to save millions of dollars which would otherwise be "invested" in fraudulent promotions, according to Louis Rothchild, director of the Washington Better Business Bureau, one of the many such organizations established in the larger cities throughout the country.

"The spotlight of radio publicity is feared by the get-rich-quick Wallingford and other fakers in business," declared Mr. Rothchild. "This has been the experience of the Better Business Bureau in Washington and numerous other bureaus throughout the country, which have used the broadcast station as a means of warning the public against the questionable salesmen of fake securities."

"The broadcast warning has done much to frighten the peddler of questionable stocks and real estate. In one instance, a promoter came to the bureau and admitted that his sales of stock in a wildcat gold mining company had been practically killed through a radio talk the evening before."

Prior to the advent of radio, it was difficult to cope with the fake stock promoter, since his activities were disclosed only when some victim complained, and there was no way of reaching the great mass of people. Experience has shown, however, that

a few minutes on the air once or twice a month gets the message of "investigate before you invest" before the people in concrete form, and closes the market before the fakers get into it.

DR. MCCOY'S HOUR

ON KJH NOW 4 P.M.

Dr. Frank McCoy, who conducts the daily health and diet column in The Times will deliver his weekly radio lecture over KJH on the educational hour at 4 p.m. This is in place of his former time at 6:45.

ATWATER KENT RADIO

The kind you want at a price without frills

NOW Atwater Kent Radio gives you your choice of two kinds of power supply.

You can have a House-Current set or a Battery set. Both are right.

The House-Current set plugs into your house lighting circuit. Its power is steady, unwavering, as long as your set is turned on. The current costs only a fraction of a cent an hour.

If you prefer batteries, or live

where you must have them, there is nothing better than battery-operated Atwater Kent Receivers. Big-scale manufacturing, geared to enormous demand for "the radio that works and keeps on working," makes the price of either kind of set easy to pay.

Of course, either kind may be installed in approved consoles designed for Atwater Kent Radio. Just tell the dealer.

ATWATER KENT MANUFACTURING COMPANY

4700 Wissachickon Avenue A. Atwater Kent, President Philadelphia, Pa.

Model 26, the wonderful new House-Current set. Plugs into any socket, just like a reading lamp or electric toaster. One of the new A.C. tubes. Takes all its power from your house circuit through the Power Supply which can be put in any out of the way place. Compact self-contained cabinet only 6 1/2 inches high. With Type Y Power Supply, but without tubes, \$26.

Model 35, a powerful One Dial, six-tube Receiver with shielded cabinet, finished in two tones of brown crystalline. Ideal for a small table, window sill or bookshelf. Without accessories, \$54.

Model 36, a powerful One Dial, six-tube Receiver. The magnifying cabinet of undistorted beauty is the type that every people prefer. Without accessories, \$70.

Model 33, a very powerful One Dial, six-tube Receiver with shielded cabinet. Unusually effective when distance-getting is essential or inside antenna is necessary. Simple antenna adjustment device assures remarkable selectivity. Without accessories, \$80.

CHICKEN TAMALES
A. V. O. Los Angeles, Cal.: Boil
a medium-sized chicken in plenty of
boiling water to cover until tender.
Drain off the stock, cut the chicken
in small pieces, remove the bones,
and set aside until wanted. Bring
the chicken stock to a boil, there
should be five cupsful, and stir into
it slowly two cupsful of yellow corn
meal, stir and cook for one hour.
Cool, work to a soft dough with one
cupful of lard, add a seasoning of
salt, and knead five minutes. Place
three large red chili peppers in the
oven and roast five minutes. Remove
the stems and seeds, cover with
warm water, add one chopped clove
of garlic and simmer until the pep-
pers are soft. Rub through a sieve,
add a little of the water they were
cooked in to make a puree. Melt a
tablespoonful of butter, add a table-
spoonful of flour, stir and cook one
minute, add the chili puree, the
chicken, one cupful of strained ma-
ize, one cupful of dried olives, and
a seasoning of salt. Bring to a boil,
remove from the stove and season
with dry corn husks with cold water,
and let stand overnight. Shake dry,
spread on a thin layer of the corn
meal dough over half of each leaf,
place a large tablespoonful of the
chicken stew in the center of the
prepared leaf, roll up, cover with
four layers of the prepared leaves
and tie the ends with string made
from the leaves. Roll up, place them
in a pot add a little boiling water
and steam one hour.

VICTORIA TOFFEE
B. O. B. Los Angeles, Cal.: Melt
one cupful of butter in a sauce-
pan, add three cupsful of brown
sugar, one cupful of golden syrup,
and one tablespoonful of water. Heat
slowly, until the sugar is dissolved,
stirring frequently, bring to a boil,
add one teaspoonful of corn syrup
and boil until a little dropped in
ice water will become brittle, by the
sugar boiling thermometer. Remove
from the fire and stir in one tea-
spoonful of vanilla extract and one
teaspoonful of lemon extract. If
liked, it can be poured over walnut
meats, placed on a well buttered
plate and sprinkled with finely
chopped nuts. Before it sets,
mark in squares with a knife.

ENGLISH PLUM PUDDING
G. W. Burbank: Chop and place
in a bowl half a pound of seedless
raisins, add to them one cupful of
seedless raisins, one cupful of seed-
less and chopped dates, one cupful of
chopped dried figs, two-thirds of a
cupful of chopped candied lemon
peel, two-thirds of a cupful of
chopped candied orange peel, one-
half a cupful of chopped citron, one-
half a cupful of chopped walnut
meats, one-half a cupful of chopped
blanched almonds, one cupful of
brown sugar, one teaspoonful of salt,
a half a pound of chopped beef suet,
grated removed, two cupsful of sifted
flour, one teaspoonful of cinnam-
on, one-half a teaspoonful each of
ginger, nutmeg, and mace, one-quarter
of a teaspoonful of cloves, and
four cupsful of bread crumbs. Thoroughly
mix all of the dry ingredi-
ents, and then add to them the grated
suet and one lemon, one teaspoonful
of lemon juice, four teaspoonfuls of
orange juice, half a cupful of mo-
lasses, half a cupful of cider, four
well-beaten eggs. Stir well, let stand
one hour and stir thoroughly again.
Steam in buttered and floured pud-
ding molds filled three-quarters full

Bar Tests to be
Conducted Here

The next examination for admis-
sion to the California Bar will be
conducted in Los Angeles some time
in February, the exact date to be de-
termined later. This was announced
yesterday by John E. Bly, local mem-
ber of the examining committee of
the self-governing State bar, which
recently has taken over the duties of
the former State Board of Bar Examin-
ers, of which Mr. Bly also was a member.

Examination blanks may be ob-
tained at Mr. Bly's office in the
Security Title Insurance Building,
and must be mailed with \$35 to the
State Bar of California at the Mills
Building in San Francisco, he stated.

QUIZ CLEARS
HAMPTON IN
AUTO CRASH

Retired Banker Not Held
After Accident in Which
Three Men Injured

Wade Hampton, retired banker, yester-
day was exonerated of all blame in
an automobile crash in which three
persons were seriously injured early
yesterday at First street and Glen-
dale boulevard. Both the District
Attorney's office and the police cleared
Hampton of blame.

Blame for the accident has been
placed by Detective Lieutenants Con-
ceder and Hickey on a fourth person
riding in the automobile in which
the three injured were motoring.
Identity of the driver of the machine,
which collided with that driven by
Hampton, is said to be known and
his arrest is expected.

Those injured in the crash are Be-
atrice Walker, 16 years of age, pos-
sible skull fracture, fracture of right
collar bone fracture, and Jack Em-
mett, collar bone fracture and other
injuries.

Hampton was arrested and later re-
leased by order of the District At-
torney's office. Patrolman Richards de-
clared that Hampton had remained at
the scene until the injured were
taken care of. He was arrested in his
room at the Billmore, where he had
gone following the accident.

Writer Gives
Highlights on
Reporting Game

An interesting description of a few
highlights in his career as a news-
paper reporter was given last night
by Harry Carr, Times columnist and
motion-picture writer, to members of
the Catholic Motion Picture Guild of
America. The speaker was introduced
by Johnny Mines, film comedian, who
acted as master of ceremonies. Sally
Blane was hostess.

Early Shopping Food Pages

Shop early in the week! It will
save you time and money and you
will avoid the week-end crowds.

SAFEGWAY STORES
DISTRIBUTION WITHOUT WASTE

Southern California's Best Customer

Safeway Stores is the biggest buyer of
California food products of any Western
retail concern. Our purchases of farm,
orchard, garden, dairy, canned and
manufactured food products, in South
California alone, amount to almost ten million
dollars annually. Besides the vast quantities of
these things, sold through our local stores, we
ship carload after carload of California prod-
ucts to our hundreds of stores in 11 other
Western states. Thus we provide growers,
manufacturers and producers a Western-wide
market, bring enormous sums of money into
this section and contribute in an actual, prac-
tical manner to the upbuilding of our great state.
There's a Safeway Store in your neighborhood.

Food Is the Ideal Christmas Gift

Dolls
For the Girls!

A Great Big
Beautiful Doll for . . . 99c

We pay all but 99c and this is how it is done:
Ask for a Coupon Card. Every time you make a pur-
chase the amount is punched on the card—which you
hold until your purchases amount to \$10.00.
Then we will sell you one of these dolls for 99c.

These prices effective in Los Angeles Metropolitan District.

MEAT GLACE
Nadine, Los Angeles: As a rule the
glace used is aspic jelly; but as this
requires time and skill to prepare, a
quick aspic jelly can be made by plac-
ing in a saucepan one and three-
quarters cupsful of cold water, one
thinly sliced carrot, one sliced onion,
one stalk of white celery, one clove,
one parsley shoot, six peppercorns
and one-half teaspoonful of salt.
Simmer forty minutes and strain in-
to a clean saucepan, bring to a boil,
add two bouillon cubes or one tea-
spoonful of meat extract, remove
from the fire and stir in one table-
spoonful of granulated gelatine that
has been soaked in three tablespoon-
fuls of cold water twenty minutes,
stir until the gelatine is dissolved,
strain and use. The best method to
use in applying the glace to cold
meats is to dip a dry-soft brush in
the hot glace and cover the cold
meats with it.

FILES OF CHICKEN
M. M. D. Pasadena: Three young
chickens, breast and wings, one-half
cupful of butter, one-half a cupful
of sherry wine, three slices of raw
ham, one-fourth of a pound of mush-
rooms sauted. Remove the skin
from the breasts of three young un-
cooked chickens. With a sharp knife
cut through the flesh close to the
bones and remove the breasts or fil-
lets, leaving the lower wing joints
with the meat attached to the larger
fillets. Sprinkle with salt and pep-
per, dip in white or cream, roll in
flour and fry lightly in butter. Place
the small fillets on the large fillet and
arrange in an oiled pan. Dot with
bits of butter, add the wine, cover
with buttered paper and bake from
ten to fifteen minutes or until ten-
der, in a hot oven, basting with the
hot butter in the pan. When ready
to serve, place each fillet on a hot
thin slice of fried ham, shaped like
the fillet. Garnish with sauted
mushrooms and pour around a
chestnut gravy.

CHESTNUT GRAVY
To two cupsful of chicken gravy
add three-quarters of a cupful of
cooked and mashed chestnuts.

ORANGE CAKE
G. M. F. Hollywood: One-half a
cupful of butter, one and one-half
cupsful of sugar, yolks of four eggs,
one-half a cupful of orange juice,
grated rind of one large orange, one
and one-half cupsful of flour, one-
half cupful of cornstarch, four tea-
spoonfuls of baking powder, the
whites of four eggs. Cream the but-
ter, add the sugar gradually, while
beating constantly, when the mix-
ture is creamy add the yolks of the
eggs, beaten until thick, orange juice
and rind, flour and cornstarch mixed
and sifted with the baking powder.
Then add the whites of eggs, beaten
until stiff, turn into butter and
sifted layer cake tins and bake in
a moderate oven.

Bar Tests to be
Conducted Here

The next examination for admis-
sion to the California Bar will be
conducted in Los Angeles some time
in February, the exact date to be de-
termined later. This was announced
yesterday by John E. Bly, local mem-
ber of the examining committee of
the self-governing State bar, which
recently has taken over the duties of
the former State Board of Bar Examin-
ers, of which Mr. Bly also was a member.

Examination blanks may be ob-
tained at Mr. Bly's office in the
Security Title Insurance Building,
and must be mailed with \$35 to the
State Bar of California at the Mills
Building in San Francisco, he stated.

QUIZ CLEARS
HAMPTON IN
AUTO CRASH

Retired Banker Not Held
After Accident in Which
Three Men Injured

Wade Hampton, retired banker, yester-
day was exonerated of all blame in
an automobile crash in which three
persons were seriously injured early
yesterday at First street and Glen-
dale boulevard. Both the District
Attorney's office and the police cleared
Hampton of blame.

Blame for the accident has been
placed by Detective Lieutenants Con-
ceder and Hickey on a fourth person
riding in the automobile in which
the three injured were motoring.
Identity of the driver of the machine,
which collided with that driven by
Hampton, is said to be known and
his arrest is expected.

Those injured in the crash are Be-
atrice Walker, 16 years of age, pos-
sible skull fracture, fracture of right
collar bone fracture, and Jack Em-
mett, collar bone fracture and other
injuries.

Hampton was arrested and later re-
leased by order of the District At-
torney's office. Patrolman Richards de-
clared that Hampton had remained at
the scene until the injured were
taken care of. He was arrested in his
room at the Billmore, where he had
gone following the accident.

Writer Gives
Highlights on
Reporting Game

An interesting description of a few
highlights in his career as a news-
paper reporter was given last night
by Harry Carr, Times columnist and
motion-picture writer, to members of
the Catholic Motion Picture Guild of
America. The speaker was introduced
by Johnny Mines, film comedian, who
acted as master of ceremonies. Sally
Blane was hostess.

Mr. Carr said that his first "big"
story assignment was the San Fran-
cisco earthquake and fire.

"I was the happy victim of a lucky
break on the story," the speaker said.
"My mistake I got aboard the wrong
train. A special train had been ar-
ranged for newspaper men, but I
wandered onto the wrong one. Un-
fortunately for the group of news-
paper men on the special train, they
were not allowed to enter San Fran-
cisco. I, traveling alone, was able
to get within the city."

Mr. Carr described vividly some of
the scenes he witnessed in San Fran-
cisco during the fire. Later, he gave
many interesting details of his ex-
perience as a war correspondent in
Germany.

Following Mr. Carr's talk, a vaude-
ville program featuring Borrah Mine-
vitch and his "Argentine Bascals"
through the courtesy of Sid Graum-
an, was given.

IMPROVEMENT URGED
The Council yesterday received and
referred to the City Engineer a peti-
tion asking for the improvement of
Dunder Drive between Common-
wealth avenue and its westerly ter-
minus.

HUSBAND HELD AS WIFE KILLER

Faces Murder Charges if He Survives Wound

Drug-Store Tragedy Told to Coroner's Jury

Would-be Suicide Has Chance to Live

While John J. Malone fought for life in the General Hospital against self-inflicted bullet wounds, a Coroner's jury yesterday charged him as the slayer of his pretty blond wife, Ruth Vela Malone, in a verdict returned after but short deliberation. On the basis of the verdict, Dep. Dist. Atty. Thomas issued a murder complaint against Malone.

Witnesses called to the stand by Deputy Coroner Monfort testified to the shooting of the woman by Malone on the 7th inst. as she fled screaming to the rear of a drug store at 331 East Twelfth street, where she was employed. Malone, according to police, had sought her out there in an effort to effect a reconciliation. They had separated several months before.

Malone, according to testimony at the inquest, fired five shots into his

JOHN JOSEPH MALONE

CITY WINS STEEL EXHIBIT

Word was received yesterday from Cleveland that Los Angeles has been selected for the semiannual meeting and exhibition in January, 1939, of the American Society for Steel Treating.

C. H. Fromme of the Axelson Machine Works, who received the telegram, declared the convention means the visit here of not less than 1000 members of the society, and already 125 exhibitors have indicated their intention to participate in the exhibition.

Church Holding Extra Services

Services at the Mt. Olive Methodist Episcopal Church on Normandie avenue will be conducted every day this week at 7:30 p.m. excepting Friday, when a banquet for men will be given at 6:30 p.m., according to announcement made yesterday by Dr. Will H. Rogers, the pastor.

The new \$35,000 auditorium of the church was dedicated last Sunday by Bishop Charles Wesley Burns. The entire church plant, including the site, now is valued at approximately \$100,000. The church has a membership of almost 300, with a Sunday-school enrollment of about 150, and one of the best-known chorists in Los Angeles.

NOW BOULEVARD

Notification that Brock has changed the name of Normandie avenue to Magnolia Boulevard was received by the Council yesterday from the Burbank City Clerk, who also suggested that the continuation of that thoroughfare in Los Angeles Pasadena. Funeral arrangements will be made later.

Body of Flyer Due Tomorrow

The body of Jack Taylor, 720 South Madison avenue, Pasadena, who was killed when an air-mail plane of the Western Air Express fell with him at Lowry field, Denver, Saturday, will arrive here tomorrow. It is being accompanied here by C. C. Moseley, traffic manager, and Harry Hanshue, president of the company.

Robbers Hold Up Same Pharmacy Twice in One Day

Only a few hours after the place had been burglarized early yesterday two negroes entered the Weaver Pharmacy at 2800 South Grand avenue while N. C. Hughes, the manager, was dusting, compelled him to execute a backward march and took \$8 from the cash register.

Famed German Aviatrice Comes to Southland to Inspect Plane Factories

Miss Thea Rasche, German aviatrice, famed for her many aeronautical exploits, arrived unexpectedly in Los Angeles last night at 6:30 o'clock and is at the Ambassador. The desire to study American-built aircraft and especially those constructed in aircraft factories in Southern California is credited with bringing her to this city.

NEW QUEST IN ACTOR'S DEATH

Analysis of Organs Ordered in Bailey Mystery

Report on Autopsy Findings Delayed as Result

Funeral Also Postponed Due to Investigation

Further investigation into the death of George Donald Bailey, 64 years of age, motion-picture actor, was ordered yesterday by County Autopsy Surgeon Wagner when he asked a chemical analysis of vital organs of the man who died Saturday night under mysterious circumstances at his home, 4611 Prospect avenue.

As a result, findings of the autopsy, begun yesterday by Dr. Wagner, will not be made public until the report of County Chemist Abernathy is received some time next week.

Coroner Nance then ordered an autopsy and specimens of the coffee were turned over to Mr. Abernathy for analysis. This autopsy also will be completed next week.

Mrs. Bailey, Mrs. Blanche Olivarez, the daughter, and Mrs. Tommy Olivarez complained of feeling violently ill after drinking the coffee Sunday, the latter saying that she felt as if she were being choked.

Mrs. Bailey then told officers her husband had clutched at his throat just before he died and mumbled he was "being choked to death."

As a result of the investigation, plans for the funeral today were canceled and the body will be held at the county morgue pending results of the autopsy and chemical analysis, Deputy Coroner McDonald said.

Renison Rites to be Friday

Funeral services for Rev. Robert Renison, 73 years of age, retired minister residing at 5107 Alvarado avenue, Eagle Rock, who died late Saturday night as the result of injuries received two hours earlier when he was struck by an automobile while crossing the street at the corner of Colorado Boulevard and Hiram street, Eagle Rock, will be conducted Friday at 10 a.m. at St. Paul's Cathedral.

The deceased had served a number of years as pastor of the Eagle Rock Episcopal Church, retiring when his wife, George, became ill.

The body, now in care of Grease's Eagle Rock funeral chapel, will lie in state at the Episcopal church, Thursday from 2 until 4 p.m.

He leaves his widow, Mrs. Millie Renison; three sons, Rev. George Renison of Eagle Rock; Rev. William T. Renison, Sagerton, N. Y.; and Rev. Robert J. Renison, Jr., pastor of Christ Church, Vancouver, B. C. The altar two are now en route to the family home. He leaves three daughters, Mrs. A. C. Leigh, Los Angeles; Mrs. Arthur P. Munger, Oakland; and Mrs. H. C. Montgomery of Berkeley. All are now with the mother in Eagle Rock.

Police investigators believe that the speed minister was the victim of a hit-and-run driver. An inquest will be held today.

Whether you Plan to Pay Five Dollars or Five Thousand...

THERE is the same satisfaction in Christmas shopping at Brock and Company... the same complete assurance of correctness, good taste and acceptability... the same gratifying confidence in courteous, intelligent consideration for your wishes... whether you plan to pay five dollars, or five thousand dollars.

So many distinguished items to choose from... smart, sophisticated, universally appreciated. And always, adding immeasurably to the value of your gift, is the prestige of a full generation's recognized supremacy in the dignified merchandising of fine things.

What a Man Would Like

TOILETWARE of silver, gold, or silver decorated with enamel.

A LOCKET for photographs or miniatures, holding one to six pictures... to be worn on the Waldemar chain. (If he has no chain, there's a suggestion, too.)

A STRAP OR POCKET WATCH, with a fine imported or domestic movement in an essentially mannish case.

A WINDPROOF POCKET-LIGHTER in a sport model, if he drives much, or plays golf, or goes in for yachting.

A PIPE SET FOURSOME, in mahogany case... gold-mounted.

A HANDSOME LIBRARY SET of shears, reading glass and paper cutter, all richly decorated.

AN ARISTOCRATIC FRAME for his favorite portrait.

A FOLDING CLOCK of 14-Karat gold, to be wound but once in eight days, for home, office or traveling.

Home Gifts for the Whole Family

SOMETHING FOR THE TABLE, in fine English China... individual pieces, such as cake or fruit compotes, serving plates, dessert plates, including the new deep-dish desserts.

HAND-ENGRAVED STERLING BORDERED VASES of Moorcroft pottery.

A BEAUTIFUL WATER LAMP of sterling silver mounted crystal... there is a variety of new shapes. Or a Rookwood lamp, with shade to harmonize.

A DEMI-TASSE SET in sterling silver, or individual items to complete the table service.

SPANISH GLASS... Hawkes reproductions of 16th century designs, in amber, green, blue... extremely interesting.

FLAME SPANISH GLASS, recreating the artistic crudities of the ancients... available in complete services.

Gifts a Woman Will Enjoy

PETIT POINT OR BEADED BAGS, by famous Austrian masters... with all the soft loveliness and lure of rare tapestry.

A BROCK-ADJUSTED TIMEPIECE, of white gold or platinum, perhaps ornamented with diamonds.

AN EXQUISITE JEWEL-PIECE... a flawless diamond ring, brooch, pin, or hair ornament.

Or a star sapphire or star ruby.

COMPACTS, LIPSTICKS, CIGARETTE CASES, of fine enamel of various shades... particularly in two tones of blue, to match this season's smartest frocks.

DAINTY CONTAINERS for the toilet table, of carved crystal, decorated with sterling and enamel.

Quite a limited list, when one considers the many, many Brock and Company gift suggestions that are not mentioned.

Important Announcement

Correct Time From Lighting Sockets

For Patrons of Los Angeles Gas and Electric Corporation

PACIFIC Standard Time from your electric light socket is now available to customers of Los Angeles Gas and Electric Corporation. This Time Service may be had simply by connecting an electric clock, called the "Telechron," to any electric light socket or "convenience outlet" in your home or office—provided your electric light service is being furnished by this Company.

How It Is Done

Time service by electricity in your home or office is possible because of the special instruments which we have installed in our generating stations to keep our great turbines running at one hundred per cent accurate speed. The Telechron is an extremely accurate electric clock, operated by a tiny motor that keeps step with the speed of our big turbines, so that by keeping our turbines working at correct speed we cause your Telechron to keep exact time.

The Telechron

The Telechron keeps perfect time when connected to our lighting system, except for the rare interruptions to service which cannot be completely prevented. It requires no winding, cleaning or oiling, and costs about the same as an ordinary spring clock of corresponding pattern. It is sold by jewelers, electric supply, radio, furniture, and office supply dealers, and department stores.

Light, Power, Heat and Time

In 1882 The Los Angeles Electric Company brought electric energy to Los Angeles. Ever since that event this service has kept pace with scientific development, and now comes electric time service as the latest contribution of Los Angeles Gas and Electric Corporation to the convenience and happiness of the community.

It is with deep satisfaction that we offer to our consumers this additional service, which costs only a trifle but yields so much in everyday satisfaction.

Los Angeles Gas and Electric Corporation

State Asks Lives of Six Ringleaders of Folsom Prison Outbreak

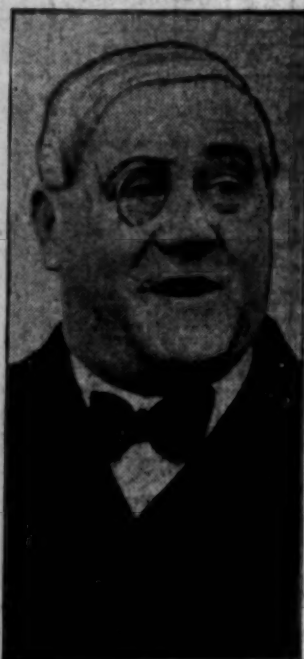

A Black Future With the Gallows at End Stretches Ahead of the six men in caps above. They are the ringleaders of the Folsom prison outbreak on the way to be arraigned on charges of murder late last week: (1) Anthony Brown, (2) James Gleason, (3) Roy E. Stokes, (4) Walter E. Burke, (5) James Gregg and (6) A. M. Stewart. Undersheriff Cox is seventh figure. (P. & A. photo.)

Nine-Months' Battle to Save the Life of Mrs. Clara Drummond, known as the "sleeping beauty," ended Sunday when the 20-year-old girl passed quietly away. Since early last April, Mrs. Drummond has been in a state of partial coma. Her case attracted wide attention. (Times photo.)

As Their Ancestors Have Done for Centuries Past, so do the Glacier Park Indians today perform the rites involved in their simple method of living. In the photo an ancient squaw is drying and smoking meat as it was done long ago when Lewis and Clark invaded the West. The white man and his implements changed little their ways. (P. & A. photo.)

Hundreds of Women have had places in the life of Franz Molnar, Hungarian dramatist, his actress-wife charged in divorce action. Molnar is in America. (P. & photo.)

It Seems the Average American Policeman Doesn't Know How to Walk—At least, Dr. William Scholl, a Chicago foot specialist, has so convinced the heads of the Providence (B. I.) police department, who immediately ordered all men on "beats" to take a course in scientific "pavement pounding." Dr. Scholl is demonstrating here with special machine. (P. & A. photo.)

Most Beautiful Eyes in New England are those of 19-year-old Marie de Minico, a committee of distinguished artists decided a short time ago. (P. & A. photo.)

An Idea of the Havoc Wrought by Torrential Rains in Morocco which brought on floods claiming the lives of scores of natives, is conveyed in the photo showing a section of the road between Marrakech and Casablanca. Highway was wiped out completely and property in the affected area heavily damaged.

Automatic Polisher for finger nails is latest wrinkle of this mechanical age. Polish for fingers of both hands costs just five cents. (Herbert photo.)

Swimming Pool Aboard Liner City of Honolulu was the scene yesterday of an aquatic party at which local natators were the guests of the Los Angeles Steamship Company. Photo shows Diana Daire, one of guests, posed on edge of beautiful Grecian pool. (Times photo.)

An Excellent Pet is the leopard, if properly trained as a youngster, according to Mrs. J. M. Schliesser, New York pet shop proprietor. Here's Mrs. Schliesser training a five-months-old feline in her shop. (A. P. photo.)

Display of Japanese Friendship Dolls at Riverside, Saturday, was viewed by hundreds of school children. The display comprised dolls valued at from \$200 to \$300 each, which "Miss Yokohama" (above) attracted lion's share of attention.

A Novel Method of obtaining employment was resorted to by this former British army officer in London. Sandwich board and mask got him work. (P. & A. photo.)

"American Wheat King" title bestowed upon C. E. Smith of Corvallis, Mont., whose wheat took grand prize at Chicago Grain and Hay Show. (P. & A. photo.)

OUR HISTORY IN PICTURES

897 "Buffalo Bill's Wild West."

by J. CARROLL MANSFIELD

AMONG HIS OTHER ACTIVITIES, BUFFALO BILL ACTED AS A CONDUCTOR OF BUFFALO HUNTS FOR WEALTHY EASTERN SPORTSMEN. ONE OF HIS MOST DISTINGUISHED VISITORS WAS THE GRAND DUKE ALEXIS OF RUSSIA.

WHEN THE VICTORY OF CIVILIZATION WAS COMPLETE AND THE "WILD WEST" HAD BECOME A THING OF THE PAST, BUFFALO BILL WENT ON THE STAGE WITH SOME OF HIS OLD COMRADES AND A FEW INDIANS. FOR FIVE YEARS HE TOURED THE COUNTRY WITH A PLAY CALLED "A SCOUT OF THE PLAINS."

FROM THIS PLAY GREW "BUFFALO BILL'S WILD WEST SHOW," AN OPEN-AIR PERFORMANCE PRESENTING INDIAN FIGHTS, "BRONCO-BUSTING" AND OTHER PHASES OF THE LAST FRONTIER. WITH THIS SHOW, WHICH MANY READERS WILL REMEMBER, HE VISITED EUROPE AND TOURED THE UNITED STATES FOR MANY YEARS.

AT HIS DEATH AMERICAN LINE, HE REMAINED A LINK WITH THE PAST. BUFFALO BILL WAS ALWAYS BE REMEMBERED AS A HEROIC FIGURE SYMBOLIZING THE SPIRIT OF THE OLD WEST. TOMORROW—BEGINNING THE HISTORY OF THE COUNTRY.
